**Rapture Kills 7,000 Annually**

Seven thousand persons each year are laid away—the burial certificate being marked "Rapture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (feverish) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever is expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. To be used whilst you work and whilst you sleep. No straps, buckles or springs attached.

Learn how to close the hernial opening as nature intended, so the rupture CAN'T come down. Send your name today to PLAPAO CO., Block 846, St. Louis, Mo., for FREE trial PLAPAO and the information necessary.
