Approximately \$550,000,000 to Be Expended In 1921 -Nebraska Authorizes \$3,000,000 Bond Issue.

Washington, D. C., Nov. 27 .- Over a billion dollars is now available for road building and maintenance in the United States, of which approximately \$550,000,000 will probably be expended during 1921, according to figures compiled by the A. A. A. good roads board.

State bonds for highway improvement aggregating \$533,800,000 have been authorized during the last three years. During 1918 state bonds amounting to \$60,000,000 were au-

Do You Really-and Fully-**Appreciate Reo Values?**

If you have ever owned or driven a Reo you do, of course.

"Five hundred miles ride in a Reo forever spoils you for any other car."

But we find that folk who do not know Reo quality and Reo performance intimately, are unable to appreciate why Reo is, "The Gold Standard of Values."

Most buyers compare Reos with other cars selling for about the same prices.

That's no comparison at all. It is, in fact, unfair to Reo.

Take the six cylinder touring car for example.

It sells for \$1850.

But that's no basis for comparison.

Nor does the \$2750 price of that luxurious Sedan truly reflect its quality and beauty.

Do you know of any other motor truck at anywhere near the price that will do the work of a Reo Speed Wagon?

Compare a Reo, of any type, point for point, with the best car you know selling for \$1000-yes, \$1500-more.

Analyze-and the more critically the better-technical points and mechanical details.

Note the careful discrimination of Reo engineers and the care and fineness of the making.

Hidden values-concealed excellence-those beauties that you learn to appreciate only after long and hard usage are I to attributes.

Any Reo model will measure up with-and in many cases excel-other cars selling for twice the price.

Compare motor-the sweetness and silence of it; economy of upkeep and operation; power. Ask Reo owners about its sturdiness and long life.

Compare transmission, axles, springs and all the mechanical details.

Then compare externals-especially quality of materials and fineness of finish.

Then ask yourself what more you can hope to receive to compensate for the great difference in price.

Of the Roadster and the Coupe the same is true.

Compare any Reo model with the best car you know of same type, but selling for a much higher price.

That's the only comparison that does full justice to Reo quality, Reo value.

Name ?- there's none stands higher than Reo.

Ownership of a car of this make is at the same time, a badge of social distinction, and an evidence of good taste and sound judgment.

The very word Reo is a synonym for quality-and any Reo car, at its price, represents "The Gold Standard of Values."
