Examination on U. S. Insurance

Lapsed Policies of Service Men Must Be Renewed at Once to Avoid Taking New Physical Test.

Lincoln Neb. Dec. 29. - Soldiers of the recent war have but today and temorrow to renew their lapsed government war risk insurance without tions. There are 55,000 men in Ne-braska eligible to carry government insurance. Of this number it is es-timated that but 14,000 have continued their government insurance George Davis, state representative of the war risk insurance bureau, says his records show that slightly more than 70 per cent of the service men in Nebraska have failed to make payments on their insurance since

being discharged.

The period during which ex-service men may renew their insurance without passing a physical examina-tion ends at midnight December 31. The examination is said to be identi-cal to that of old-line companies. The examinations must be made by a licensed physician, and the cost must

be borne by the applicant.

Mr. Davis estimates that the 14,000

Nebraskans carrying government insurance have policies amounting to \$98,000,000. He says each ex-service man continuing the government in-surance in one form or another holds policies averaging \$7,000.

Government term insurance can be continued for a period of five years after the termination of the war, but policy holders may convert it into old line policies at anytime. Mr. Davis says a majority of the policy holders in the state already have converted their insurance.

Nebraska policy holders of government converted insurance, Mr.

Davis says, are carrying more 20year paid-up policies than any other form. Twenty-year endowment policies, he says, is next in popularity.
Ordinary life, endowment at the age of 62, 30-year paid up and 30-year endowment follow in the order

Mr. Davis explains that it is to the policy holders' advantage to convert the term insurance as soon as finan-cially able, as the longer it is delayed the larger the premiums will be.

We are ready to demonstrate and make deliveries of this NEW LIGHT-SIX

HE new Studebaker LIGHT-SIX meets the long existing demand for a comfortable, durable and economical light-weight, six-cylinder car. The public has always wanted such a car—the NEW LIGHT-SIX satisfies this desire.

Although this new six-cylinder car weighs but 2400 pounds, it is so perfectly balanced that its roadability is remarkable - there is no side sway or creeping-it drives straight as an arrow. You must ride in it and drive it to appreciate just how it sets new standards of power, flexibility, comfort, ease of handling, smoothness of operation and freedom from vibration.

The motor of the NEW LIGHT-SIX is an exclusive Studebaker design-conceived by Studebaker engineers and built complete in Studebaker factories. No other light, six-cylinder motor yet produced is as free from vibration or as flexible and powerful.

You can have the advantage of this motor's wonderful gasoline economy and the satisfaction of its smoothness of operation only by owning a Studebaker LIGHT-SIX. Let us give you a demonstration of the NEW LIGHT-SIX-or better still drive it yourself.
