

Omaha Grocer in Alienation Suit

Gayety Actor Wants \$25,000 From Man He Says Stole Wife's Love.

Elmer G. Wildhaber, Omaha wholesale grocer, was named defendant in an alienation suit for \$25,000 damages filed in district court yesterday by Harold F. Carr, an actor who appeared recently at the Gayety theater.

The petition alleges that Wildhaber "used presents, coaxing, flattery and persistency and willfully, secretly and maliciously connived to alienate Mrs. Gladys Carr's affections from her husband."

It states that Wildhaber obtained her love and affection by stealthy attentions, secret meetings and love letters.

"I know the Carrs," Mr. Wildhaber said yesterday. "But I haven't seen Mrs. Carr for two years. There is nothing to the suit. I know of nothing that I did to alienate Mrs. Carr's affections."

Omahans Leave to Open Court in Grand Island

Federal Judge Munger, I. C. Hoyt, clerk of the United States district court, and United States Marshal James Dahlman will go to Grand Island today to open federal court next Monday. But one case will be heard in that city, after which the party will return to Omaha to resume hearing of cases on the docket here.

Federal Judge Munger adjourned court in Omaha yesterday, following hearing of the Claude L. Nethaway case.

Toilet Articles and Drugs

Very Specially Priced
Perfumes—Odd lots of staple lines, original bottles at 1/2 price.

"Couch Pad," 18-lb. sanitary all cotton pad, at only..... \$5.98

"Never-Stretch," 50-lb. all cotton layer felt mattress, can buy..... \$24.50

The Riot

--September 29, 1919

It was a beautiful Sunday afternoon. Men and women paraded along the downtown thoroughfares in their "Sunday's best."

While the paraders wended their way along Farnam street, a prisoner peered through the bars of a window in the county jail. He was charged with a serious crime.

During the morning, rumors were afloat that a "lynching party" was being organized. About mid-afternoon a crowd of boys gathered around the courthouse and demanded the prisoner. They were repelled by the police. The crowd grew larger and the police were helpless.

The result: An attempt was made to hang the mayor; several were shot; the courthouse was partially destroyed; the prisoner was lynched.

This all happened because only a very few of our large population refused to pay heed to law, order and justice.

We must always let order and justice prevail. We must all play fair.

The Cost of the Courthouse Riot

When the courthouse was built it cost \$1,000,000.

To repair the damage done will cost \$500,000

THE REPAIRS ALONE AMOUNT TO HALF OF THE ORIGINAL COST OF ERECTING THE STRUCTURE

WHY?

Freight on materials used in the repairing of the building increased about 100 per cent from 1915 to 1920. The mason who is re-laying the stone is receiving much more money in wages than he received in 1915. The cost of lumber, stone and mechanics' tools more than doubled since the courthouse was built.

Our Costs Increased Likewise

Because of the general increase in our manufacturing costs, we have had to spend \$1.36 for every one dollar our income has increased.

During September, October and November, our operating expenses alone, NOT including investment charges, replacements and renewals, increased more than our income. During these months, our income increased \$128,537 and our operating expenses increased \$174,485.

To obtain money to repair the courthouse, the county had to use borrowed money.

It cost them much more to borrow this money than it did when the courthouse was first built. It costs us much more to borrow money now than it did in 1915. All of this goes to make for increased costs of operation.

Our costs increased for the same reasons that the costs of the county increased.

All of this Plus Depreciation

The Increase We Ask

is that needed to meet increased manufacturing costs, the increased cost of borrowing money, and the expense of replacing worn-out equipment as becomes necessary.

We ask no more of an increase than the increase in expenses we have met, and is now confronting you, your friends and business institutions. Figure out how many things you touch during the day which have not increased in price since 1915.

Over night, at the time of the riot, the county suffered a loss of \$500,000; in other words, had to increase its investment one-half in the courthouse building—and the courthouse when repaired, will be no more useful and probably less beautiful than it was before the riot.

Time after time, we have had to increase our investment to continue to serve you and yours in the best possible way and to keep pace with the increased demand for our service.

At various times we have had to meet problems under even less favorable conditions than the county met at the time of the riot. For instance, the Omaha tornado of 1913 caused us to suffer the loss of thousands of dollars.

WE ASK ONLY A FAIR WAGE ON THE MONEY REPRESENTED BY THE VALUE OF OUR PLANT; A SUFFICIENT INCOME TO MAKE REPLACEMENTS AND RENEWALS WHEN NECESSARY; AND THE COST OF MANUFACTURING THE SERVICE WE DELIVER INTO YOUR HOME AND BUSINESS.

The cost of borrowing money has increased.

The cost of making replacements and renewals has increased.

The cost of coal, labor and taxes has increased.

WE ONLY ASK THAT WE BE PERMITTED TO INCREASE OUR RATES SO THAT WE CAN MEET THE INCREASES WE HAVE SUFFERED.

The gas company had to meet the same problems we now face—they took their own increases in rates. We ask for an increase much less than they received.

Nebraska Power Co.

Isn't That Fair?
