

Girl Gives Up Luxury to Wed Poor Salesman

Youthful Lover Refuses Offer Of \$1,000 Cash and Good Job If He Would Defer Marriage for Year.

Love will find a way. It found a way in the case of Margaret Strehlow, 19-year-old daughter of R. C. Strehlow, and Ray Bugee, 24, of 1625 Victor avenue.

They were married last Sunday afternoon by Father B. Sime, in St. Mary Magdalen Catholic church, a few hours after R. C. Strehlow offered Mr. Bugee financial prospects if he would sign a contract to defer the wedding at least one year.

The elder Strehlow has announced his intention of going to California next Sunday, taking with him Pollard, youngest son, and cutting his daughter and son-in-law off with the proverbial shilling.

Bugee is a haberdashery salesman and the former Miss Strehlow has been attending Stanley Hall school in Minneapolis, and has been reared in luxury. The engagement was made six months ago. After the Christmas holidays Margaret returned to her school and her father wrote a letter, asking her to return to Omaha. When she returned she went to the Bugee home, instead of to her father's.

An attorney representing R. C. Strehlow went to the Bugee home last Sunday noon with a contract for Ray and Margaret to sign. Ray was to have received \$1,000, in cash and the promise of a position at \$250 a month, on condition that he would postpone the nuptials one year, and it was to have been further agreed that if he did marry Margaret and proved himself to be an acceptable son-in-law, he would be given a position at the salary mentioned. Within a few hours after the attorney left the Bugee home, Ray and Margaret were married.

The elder Strehlow announced that he was through, unless Bugee should make life miserable for Margaret. Mr. Bugee asserted that he felt confident he can earn a comfortable living for himself and wife without assistance from his father-in-law.

Mr. and Mrs. Bugee will be at home at 1631 Victor avenue.

Kearney, Neb., Jan. 12.—(Special.)—Fred Mueller of Pleasanton, member of the county board of supervisors, has offered his resignation, giving ill health and other pressing business as the cause. He served for the past year. The seat of B. F. The board is awaiting advice of their attorney before taking any action. In the meantime, Fred Finke, his opponent at the last election, has filed his bond and is ready to serve if drafted. Eber Richards of Elmcrest was re-elected chairman of the board.

The withdrawal of the petitions was made when it was reported there as a connection between the blue law enthusiasts and the city manager boosters.

Yesterday Anniversary Of State's Worst Blizzard

Yesterday was the anniversary of the blizzard of 1888, the worst northwester which ever visited this state. It was also the anniversary of a severe storm, which visited Omaha in 1912, and lasted two days. The government records of the storm of 1888, show that heavy snow began at 6:54 a. m., and continued to 5:20 p. m. During that storm a school teacher near Omaha tied her children together with a rope and in that manner they reached safety.

Naval Aeronauts Start Journey Home

(Continued from Page One)
refusal to retract was the immediate cause for Farrell's blow. Newspaper correspondents interferred and separated them. Relaxed from their first night's real sleep after nearly a month of hardship, however, the fellow adventurers today apparently tried to forget their differences and began to think of the reception planned by the Toronto Rotary club upon their arrival there and their ultimate arrival in Rockaway on Friday.

All three today were somewhat taciturn regarding their four days' vicissitudes, after landing in the wilds and before they finally sighted Tom Mark, the Cree Indian who led them to the little Hudson Bay company's trading post at Moose Factory. Lieutenant Farrell, however, outlined their hardships to the correspondents, telling how they zig-zagged through the wilderness on the second day after the barkling of a dog caused them to descend, he said.

Thought Bark Phoney.
"We were beginning to think that dog bark proposition was rather phoney."
They were so hungry on the third night they could not sleep, he said, "except Kloor, who slept so soundly and so close to the fire he burned his flying boots." They were beginning to become desperate, he said, by the time they sighted sled tracks about 10 o'clock on the morning of the fourth day. They followed the tracks about five miles along the Moose river before they sighted the Indian who started to flee when Hinton offered him a cigar. He became more communicative, however, when Kloor gave him a dollar.

Farrell said the trip from Moose Factory to Mattice was uneventful. Denounced Report.
New York, Jan. 12.—Mrs. Stephen A. Farrell and Mrs. Walter Hinton, wives of two of the naval balloonists today characterized as "unbelievable the story of the dispute between their husbands over the letter Lieutenant Hinton is alleged to have written to his wife. Mrs. Hinton, after expressing her disapproval of the affair, fled to her room saying, "I have no statement to make until I hear from my husband."
"After what those men have endured," said Mrs. Farrell, "I cannot believe they will be anything but brothers for the rest of their lives. No one of them deserves more credit than the others."
"I am the luckiest woman in the world," she continued, "and my prayer has been answered. I never lost confidence, you know. As I said on Christmas eve, I would not have given up hope for their return until next spring. The children have never given up hope either. Mr. Farrell has taught us all not to worry, but to be cool, level-headed and quiet."

To Hold Inquiry.
Washington, Jan. 12.—Secretary Daniels announced that a court of inquiry would be convened at the Rockaway, N. Y., air station upon the arrival there of Lieutenants Hinton, Farrell and Kloor, to inquire into all the circumstances of the balloon flight, which carried the three officers from Rockaway to the shores of Hudson bay.

The court of inquiry, Mr. Daniels said, will pay particular attention to the reported sale to newspapers and news syndicates, of letters from the three officers.
Another subject of the inquiry, the secretary said, will be the clash yesterday at Mattice, Ont., between Lieutenants Farrell and Hinton, growing out of the publication of letters written by the latter to his wife and published by a New York newspaper.
Mr. Daniels said that the court of inquiry had not been ordered and he was not sure whether the order would be sent from his office or the matter left to the commandant at Rockaway. Whatever course is pursued, the precept and powers of the court, he said, would be broad.

Steamship Firms Oppose Bill to Bar All Aliens

United States in No Danger From "Flood" of Immigration, Representatives Tell Senate Committee.

Washington, Jan. 12.—Five witnesses today told the senate immigration committee that the United States was in no danger of a "flood" of undesirable aliens and that no emergency existed to justify the suspension of laws and adoption of the Johnson bill prohibiting immigration for five years.

Four were officials of the trans-Atlantic steamship companies, who said their information failed to indicate any great increase in Europeans desiring to immigrate to the United States. On the contrary, they said, there was already a diminution in the numbers of incoming passengers.

They credited the decrease to the fact that unemployment was known to exist in the United States.

All declared it would be impossible, even with the use of ships of all types, to bring more than 995,000 immigrants in 1921.

F. C. Harley, San Francisco, secretary of the National Immigration council, pleaded for "pick and shovel laborers" rather than for men of educated classes. He asked the majority to waive to permit the workers to enter and declared the danger of immigration centered in educated aliens of the radical and agitator types.

Discussing distribution of aliens, Mr. Sandford said that of 1,995 persons who landed in New York from Trieste, 22 per cent went to Ohio, 11.15 per cent to Illinois, 4.10 per cent to Michigan; 20.10 per cent to Pennsylvania, 4.76 per cent to New Jersey, 3 per cent to New York state, 3.85 per cent to Wisconsin, 2.50 to California and 2.51 to Indiana.

The secretary stated that while it was not customary for the government to recommend such improvements he felt that this road, being used extensively for government purposes and as a direct route to Leavenworth and Kansas City, should be completed immediately.

Lincoln, Neb., Jan. 12.—(Special.)—Criticism raised by Frank Tyrrell, counsel for officers of the Bankers' Fire Insurance Co., whose affairs were recently turned over to Sam Waugh by the state department of trade and commerce, that Mr. Waugh transferred a large company deposit from the American State bank to an institution with which he is connected, was answered Wednesday by Mr. Waugh with the statement that he had taken \$35,000, which was drawing no interest at the bank, and invested it in Liberty bonds of the par value of \$39,000.
