

Enactment of New Tariff Is Sought By Stock Raisers

Report of Resolutions Committee of American Live Stock Association Expected to Precipitate Debate.

El Paso, Tex., Jan. 14.—Enactment of a tariff for the protection of the live stock industry, the gradual establishment of municipal retail markets in all cities and the enactment by congress of constructive federal legislation regulating the packers, commission men and traders was recommended in resolutions presented to the American National Live Stock convention here today by its resolutions committee.

The committee report was to be discussed and voted upon today. Indications were that delegates opposed to any expression in favor of legislation regulating the packing industry would oppose the report of the resolutions committee.

Didn't Mention Bills. The committee report did not mention by name either the Gronna bill or the Anderson bill, now pending in congress.

The committee also recommended that the association demand that prices at hotels, restaurants, on dining cars, in retail butcher shops and the prices of farm implements, shoes, leather products, clothing and manufactured goods be reduced "proportionately with the reduction in price of live stock and farm products, which have reached a pre-war basis."

Discussing the tariff, the committee said:

"The entire wealth of the country is based upon the products of the soil and fertility cannot be maintained without live stock. The live stock industry is facing the most critical period in its history. The products of the farm should receive the same protection accorded manufacturing interests. The welfare of the entire nation makes imperative enactment for the protection of the live stock industry of a tariff on live stock and its products, particularly dressed beef. Such a tariff would place the American farmer on an equality with his foreign competitor."

Score High Meat Prices. Touching retail wheat markets the reports said:

"Retail prices on meats failed to respond to the decline in live stock values. The live stock industry is experiencing unexampled depression which can be relieved by the increased consumption of meats. This association favors a movement for the gradual establishment of municipal retail markets in all cities, handling not only meats but all perishable articles of food under a system of sanitary regulation and license in order that meats and other perishables may be placed in the hands of the consumer with the least possible distribution expense."

We recommend that a committee be appointed to take up the subject with the bureau of markets or other government agencies, with a view to preparing suggested plans for such municipal markets, seeking co-operation with the bureau in promoting and advocating the system."

On meat packer legislation the committee reported the following resolution:

"Your association is definitely committed to the establishment of an open competition system of production, manufacture and distribution of live stock and its products and under existing conditions the principal distributors of live stock products have an advantage over both the unorganized producers and prospective competitors which can only be properly equalized by legislation. This condition brings about lack of confidence which is seriously curtailing production. Some action must be taken to remedy the existing situation in order that producers, distributors and consumers may be best served. We urge congress to promptly enact constructive legislation regulating the packers, commission men and traders to the end that production be maintained, confidence be established and a distribution guaranteed on an economic basis."

Many Other Resolutions. Other resolutions included:

An appeal to federal reserve banks to instruct member banks that live stock producers, already possessing credit, are not to be forced to make payments on loans until such time as live stock can properly be marketed and that credit be extended wherever possible to care for stocker and feeder cattle. Endorsing the work of the bureau of markets. Directing presentation of proceedings for reduction of railroad rates. Extending moral and financial support to the Southern Tariff Association. Endorsing the plan for the establishment of a \$100,000,000 export finance corporation and endorsing the war finance board.

Endorse Farm Bureau. Endorsing the work of the American Farm Bureau federation. Taking exception to increased charges of live stock commission companies and stock yards organizations handling live stock products and recommending re-establishment of former charges.

Endorsing plans for co-operative sales agencies at central live stock markets. Favoring repeal of war profits, excess profits and surtaxes and substitution of a system of taxation such as could be fairly distributed. Asking the secretary of agriculture to grant extension of time in the payment of fees by permittees by reason of their inability to dispose of their cattle because of the war markets.

Sinn Fein Emigrants Can't Enter Into Australia. Melbourne, Australia, Jan. 14.—Osmond Gratian Eastmond, regarded as a Sinn Fein emigrant, refused today to take the oath of allegiance and was, in consequence, again refused permission to land in Australia.

Girl-Wife Charges Husband Struck Her

Report From Budapest Tells of "Death"—May Be Only Ruse or May Have Been Murdered for Activities.

Mrs. Lulu Ochsenbier. Charging that her husband, Ray Ochsenbier, struck and swore at her, Mrs. Lulu Ochsenbier, 19, filed suit for divorce in district court yesterday. The girl-wife was formerly Miss Lulu Parke, popular member of the younger set in Dundee. She met Ochsenbier when she was 17, just out of high school. They ran away and were married in Papillion on August 4, 1919. Young Mrs. Ochsenbier asked the court for a restraining order to keep her husband from molesting her, because she says, she fears him. "I wish somebody had locked me up in the house the day I eloped," she sighed. "But I'll know better next time. I'll be able to tell whether I'm marrying a real man with sterling qualities or just make-believe."

Search for Missing Girl Student Ends as Her Body Is Discovered

Berkeley, Cal., Jan. 14.—Search for Miss Clara Sheldon, University of California student and daughter of L. C. Sheldon, late grain capitalist of this city, who mysteriously disappeared from an East Oakland sanitarium several days ago, ended yesterday with the finding of the girl's body on the San Leandro ranch of Frank Dutra, near the Foothill boulevard. Shot through the left temple, the girl had grasped in her left hand a .38-caliber revolver. She had apparently been dead at least a week. The body was found by the son of the rancher. Because of the absence of powder burns about the wound in the temple, the San Leandro authorities are continuing an investigation on a possible murder theory.

Abyssinian Riot Leaders Are Found Guilty of Murder

Chicago, Jan. 14.—Grover C. Redding and Oscar McGavick, alleged ringleaders in the Abyssinian riot on June 20 last, in which two men were killed, were found guilty by a jury last night of the murder of Robert L. Rose, a sailor at the Great Lakes naval training station, one of the two victims of the outbreak, and were sentenced to be hanged. Five other defendants were found not guilty. Redding and McGavick were the leaders of a cult which advocated the return of negroes to Abyssinia.

Ignatius Lincoln, International Spy, Reported Dead

Report From Budapest Tells of "Death"—May Be Only Ruse or May Have Been Murdered for Activities.

By KARL H. VON WIEGAND. (Universal Service Staff Correspondent.) Berlin, Jan. 14.—Ignatius Trebitsch Lincoln, famed as an "international spy," according to information from Budapest today has "died." Lincoln has played his role in England, United States, Germany, Hungary, Austria and lately in Czechoslovakia. Lincoln was charged with being one of the chief conspirators and the press censor in the Kapp revolution in Berlin last March, and was afterward associated with Colonel Bauer in certain Russian and Hungarian circles working up an anti-bolshevik movement. He is alleged to have turned traitor last summer when he deserted that movement and was accused of selling documents and information to the French on alleged monarchistic plans in Germany, Russia and Hungary.

Many Swore Vengeance. These documents and reports, recently published in Prague and London were credited to him. As told in one of my recent dispatches, for this alleged betrayal a secret sentence of death was said to have been passed upon Lincoln by three different secret groups. A letter purporting to be from a member of one of these groups has been received here containing the information "Trebitsch has died." Was in Prague. Lincoln was last heard from in Prague, from where he called up American newspaper men in Berlin on the telephone and said he was working with the Czechoslovak foreign minister, Benesch. Whether secret agents have found Lincoln and carried out the sentence or whether it is a scheme of Lincoln's to throw pursuers off the track is not known. Lincoln is alleged to have confided to a woman friend some time ago that in view of his many enemies he proposed to be found dead some day by getting possession of some corpse, disfiguring it beyond recognition, placing his papers in the pockets and disappearing.

Lincoln was a Hungarian Jew. He emigrated and became minister of the High Church in England and succeeded in entering Parliament. He has a brother who is a noted radical, living in the United States under another name.

Youth Shot by Police as He Drives Stolen Car

San Francisco, Jan. 14.—Henry Aldana, 14, son of Dr. E. M. Aldana, was shot and possibly fatally wounded last night after a four-mile chase through the downtown section by members of the shotgun automobile squad, who said the boy refused to alight when they discovered him driving a stolen automobile. Expert driving on the boy's part, the officers said, prolonged the chase.
