## "The Phonograph with a Soul" What did Edison do during the war

WOULD you like to know the inside facts of how America turned the tables on the U-Boats?-

Read "What Did Edison Do During the War?" It contains Uncle Sam's official announcement of what Mr. Edison accomplished, when he "joined the Navy", as President of the Naval Consulting Board. It explains mysteries of the U. S. Navy's U-Boat warfare, that had the whole world guessing.

This bulletin also tells how Mr. Edison kept the New Edison, his favorite invention, within reach of every home, although it cost him millions in profits. The New Edison has advanced less than 15% in price since 1914, and this includes the War Tax. This bulletin also tells how Mr. Edison sponsored the Budget Plan, whereby you can arrange your own terms for your New Edison. Call or write for a copy of this bulletin.
