New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whisky, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal, and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be doubtful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.

Ruffles, puffings, shirtings, panels, eyelet embroideries—especially on taffeta—and leaf embroideries are being shown. And sashes, of course—as to the colors—navy, black, brown, pearl gray, wren, pewter, ostrich, and Hindustan shades combined with other shades for contrast predominate.
