

Lloyd George, in Speech, Declares Germany Must Pay

Premier Says It Must Not Be Permitted to Pay in Way That Would Injure Country Receiving Payment.

Birmingham, England, Feb. 5.—Premier Lloyd George, in a speech here today, dealing with the recent meeting of the allied supreme council, said that before the last election he laid it down that Germany was morally bound to pay for the war damage it had inflicted, but that he could only get from a debtor what he was capable of paying.

Dr. Simon, the German foreign minister, was an honest and sincere statesman, and he said that he meant to carry out Germany's obligations if he possibly could, continued the premier. Once the German people got their minds off the war and onto peace they would soon become prosperous, the premier predicted.

Mr. Lloyd George said his advice to Germany would be to accept the bill and not allow itself to be misled by passion and repetition of 1914. Germany, he pointed out, had not yet tacked itself to the level of Great Britain and France.

Dr. Simon had the right to present alternative proposals, Mr. Lloyd George conceded, but if these proposals represented a mere attempt to avoid payment, the allies would not tolerate them.

He said he had had an uneasy feeling that behind Simon's words of 1914, but the assumption of powers by the provokers of the war could not be permitted. The sword must be sheathed for all time, he declared. Nothing would harden the allied people against Germany more than the feeling that it was still animated by the idea of treating treaties as they treated those of 50 or 60 years ago—as "scraps of paper."

After the first year it was insisted that the plant should be moved to some more advantageous shipping point, but the smaller stockholders came to the rescue, got behind the controlling stock, got behind the controlling machinery, and at the annual meeting a handsome dividend has been declared, a surplus fund established and the industry saved for the small town.

Leave Sunshine In World. Urges Deaconess Here

Ordained Officer in Methodist Church. New Assistant to Local Pastor, Says Blue Laws Useless.

"Why take the sunshine out of the world?" Such is Miss Lillian Judy's attitude toward the silver screen and the light fantastic. Miss Judy is an ordained, licensed Methodist deaconess.

She has come to Omaha as the Omaha pastor of the Rev. C. C. Wilson, pastor of the Grace Methodist church, Twenty-fifth and E streets. "But I do think the movies and dancing should be regulated, especially on Sunday," she declares.

All theaters should be closed, however, on Sunday, Miss Judy declares, believing the Sabbath should be more respected. Religion is the only means of reform in the world, in her belief. "People are governed more by their moral instinct than by man-made laws," she says.

And the movies have a great future before them along educational lines, Miss Judy believes. They can be made into a great power for good. Blue laws have no place in her category. She claims so-called abolition of extreme entertainments by law is of little effect.

Miss Judy is a graduate of the National Training School for Deaconesses in the Methodist church at Kansas City, Mo. For the past four years she has been engaged in evangelistic and visitation work in Nebraska, Iowa, Kansas, Missouri and Oklahoma. Her field of activities comprises a congregation of 1,000 families, among whom she will establish an Americanism program with the establishment of social and community centers among the foreign settlements of the city.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, as a man's authority. He also tells us that indigestion is caused by Hyper-acidity, meaning, there is an excess of hydro-chloric acid in the stomach, which prevents complete digestion and starts food fermentation. Thus everything eaten courses in the stomach much like garbage soured in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn flatulence, water-brash or nausea.

He tells us to lay aside all indigestible aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

A HOME-MADE GRAY HAIR REMEDY

You Can Make a Better Gray Hair Remedy Than You Can Buy.

Gray, streaked or faded hair is not only unbecoming, but unnecessary. Anyone can prepare a simple mixture at home that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce base run, a small box of Barbo Compound and 1/4 ounce of glycerine.

These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the scalp, is not sticky or greasy and does not rub off.
