Nebraskans and Iowans Thought To Have Claim to Coney Island Site

Atlantic, Ia., Feb. 8.—(Special.)—That the land which is the foundation of the supposed \$800,000,000 Wyckoff estate, to which there are a score or more of heirs in southwestern Iowa and Nebraska, lies within the confines of what is now the Thirty-second ward of Brooklyn, N. Y., embracing the present Coney Island pleasure park and what many decades ago was the old town of Gravesend, is the report made by a firm of Gotham lawyers to Swan, Clovis & Swan, attorneys here for John A. Walker, one of the numerous heirs.

This is the first definite information received by the heirs regarding the location of the land which Peter Wyckoff received from the government in recognition of his services as a soldier in the revolutionary war. Even yet the exact location of the property is shrouded in uncertainty. The New York attorneys are making diligent search for records which will definitely establish the boundaries of this now almost priceless real estate.

Genalogy Traced

The founder of the family in America was Claes Cornelisz, native of Holland, who came to this country while what now is the state of New York was under Dutch rule and known as the New Netherlands. This was in 1636.
