

Athletic Club of Chicago to Sail On Swell Junket

Many Millionaires Secure Passage for Maiden Trip of Most Costly Ship Ever Built in U. S.

Washington, Feb. 9.—The Chicago Athletic club is going on a swell junket to Honolulu, having chartered most of the space on the United States shipping board steamer Hawkeye State, the most costly ship ever built in America, which will leave Baltimore on its maiden voyage next Tuesday with what the local shipping men term a millionaire passenger list.

The vessel, complete, cost the shipping board \$8,500,000, which is more than any merchant ship in operation in the world cost. Before the war, the Olympic, considered the most palatial and the largest in operation, cost only \$7,500,000. The Leviathan, which cost more than the Hawkeye State, has been tied up for some time at New York.

The Hawkeye State's enormous cost was caused partly by the many changes in its design. First, it was intended for a passenger ship when the war ended. It was the government's first experiment in passenger ship building and every effort was made to see that it was as good as, if not better than, any built in Europe.

To make the ship able to compete with the fastest European liners no expense was spared in putting in innovations. Among them are lounging decks and other accommodations for passengers, there is a swimming pool on the main deck.

The first trip of the steamer, which will be to Honolulu, stopping at Havana, Panama Canal ports and San Francisco, will be made by people able to appreciate her magnificence. There will be at least 10 millionaires aboard it and many other wealthy men.

Jewel, Flower, Color Symbols for Today

The carnation is today's talismanic gem; the ancients believed that it brought good luck in love affairs—indeed, they claimed that at this time no lover would be successful unless he wore this stone.

The day of the brown-beating boss is over.
The successful boss of today gives orders in a quiet but positive way. If it becomes necessary for him to criticize a man, he does it quietly, alone, that he may not injure the pride of his workman nor rouse him to antagonism.
