Problems That Perplex

Answered by BEATRICE FAIRFAX

To Mother and Daughter. Dear Miss Fairfax: Read your letters of mother and daughter in The Bee and would like to answer.

When I was 16 most of the girls were stepping out with boys. My parents did not allow me to do that. I was in school and they said I would have better times later on. I am glad to say that until I was 18 years old I was under all rules of my parents about going out with boys.

Thirty-second District—Mrs. George Frater of North Platte, president, at Bayard, May 10, 11 and 12.

HOLDING A HUSBAND Adele Garrison's New Phase of Revelations of a Wife

Why Madge Didn't Envy Leila Her Home-Coming.

When I awoke Lillian was gone, and the sun was streaming into the room beneath my lowered curtains.

I looked at my wrist watch in alarm. Half after eight! Lillian's train had been gone an hour. Why had I been allowed to sleep so late?

I rushed through my morning toilet as though I were trying to catch a train, and descended to the dining room to find it deserted, but with a single place laid at the end of the table.

Voices in the kitchen drew me to that room, and there I found Mrs. Durkee and Edith, enveloped in gingham aprons, busily engaged in washing the breakfast dishes.

"Hello, lady," little Mrs. Durkee said gaily. "How's your neuralgia?"

For an instant I was startled, then I grasped the fact that Lillian had provided this excuse for my oversleeping, and thus, had given me the opportunity for a little extra rest.

"All gone," I said nonchalantly.

"You won't delay us," Mrs. Durkee said in matter-of-fact tones. "I'll let you wash your own dishes, for just as soon as we finish here, Edith is going to go over the house with a dust cloth and a floor brush for the last touches—everything is all ready except for that—while I'm going to get all the cooking for the dinner tonight out of the way. Then we'll be free when Lillian comes back at noon with those draperies. And there won't be a thing for you to do until then, so you can just as well go right on over to your own house. What time will Jim and Katie get there?"

"At 10 o'clock," I returned. "But you needn't think I'm going to be put off this way. Surely I can help somewhere this morning."

"Don't be a darned fool just because you know how," Her Fluifness retorted. "Here! I'll compromise. You can finish these dishes with yours when you've eaten your breakfast, then Edith can get at the room right away, and I'll start getting my things together for my pudding. You won't interfere with me a bit."

"That's more like it," I smiled. "And I know Katie will be glad to get lunch for us."

"Yes, I can see her delight," sniffed Her Fluifness, "with all that mess over there to clean up. And I'll tell you frankly, I couldn't be bothered with her in my kitchen. She'd drive me wild."

Lillian Cuts Corners. I finished involuntarily and bit my lips to keep from replying in a way equally telling. Even in the days when maids were available, little Mrs. Durkee would never be bothered with one, but I have long known that she cherished a petty jealousy of my success in keeping Katie so long. And she never loses an opportunity to disparage the girl in her mild little fashion.

My reply, when I finally made it, ignored her little speech completely. "I don't turn on that percolator," I said, starting for the dining room as if I had just thought of it. "Lillian will be back before I have breakfast. Of course, she caught her train?"

"By the skin of her teeth, yes," little Mrs. Durkee replied a bit tartly. "I think she was slightly disappointed in not getting a rise from me on the subject of Katie. For once in her life I saw her lose her deliberation, and actually run for a train. The taxi man disappointed her. But you can't cut the corners the way she does without coming a cropper occasionally. She's going to miss a train some day that will mean a great disappointment to her."

I saw that Her Fluifness, like many another person who has made a sacrifice of some cherished project, was in the caustic mood of reaction, which often follows an ascent to ideal heights. That she would be more or less disagreeable until she had worked off her choler I was sure. So I resolved to keep out of her way as much as possible, and another any rancor her palpable crankiness might arouse in me.

But as I hurried through my breakfast, and afterward finished the kitchen work with the consciousness that Mrs. Durkee's critical eyes were upon me, I thought, a trifle grimly, that if the temper of Her Fluifness did not improve by nightfall I didn't do myself any good by not envying Leila her home-coming.

Mr. and Mrs. Charles Burgess arrive in Omaha Saturday morning from their honeymoon trip. Mrs. Burgess was formerly Miss Catherine Smyth of Washington, D. C. They will be at the Ward Burgess home for a time.

WHAT TO EAT TO PUT IRON IN YOUR BLOOD AND MAKE YOU STRONG

PHYSICIAN TELLS HOW IRON-CONTAINING VEGETABLES SUCH AS LENTILS SPINACH, APPLES, ETC. WHEN REGULARLY TAKEN WITH ORGANIC IRON BUILD GREAT STRENGTH AND ENDURANCE

At their own doors—in the very gardens of those who are weak, nervous and ailing all the while is one of the most valuable and strengthening foods known to medical science, said Dr. James Sullivan, formerly physician of Bellevue Hospital, (County Dept.) and the Westchester County Hospital, New York, when consulted recently.

Dr. Sullivan further said: "If your daily diet contains an abundant amount of iron you are giving your body the red blood food it craves. But if your blood lacks iron and is thin, pale and watery you cannot expect to be strong and well. On the contrary, your nerves become weakened and you become irritable, fussy and easily upset. In such cases, what you need is iron—organic iron to remove the cause of your trouble, and the most organic iron is supplied in *Atto*, which is a vegetable food. It is *Atto* which so quickly your multitude of symptoms will disappear and how strong and vigorous you will become."

Be careful to distinguish between ordinary metallic iron which people usually take

Announcing a Special Introductory Sale of Hartman's Fully Guaranteed Gearless Water Power Washer

Here indeed is your chance to save money. The Water Power Washer pictured is the greatest labor saving device ever invented. It is built to sell at many a dollar more than our special Introductory Sale Price and is sold to you on a positive guarantee of satisfaction. Attention is called to the fact that this is a One Day Sale—you must come to Hartman's Thursday if you want to secure a Fully Guaranteed Water Power Washer at \$22.75.
