

Bill to Retire Crowder Talked To Death in House

Measure Left at Top of Calendar After Seven Hours of Hopeless Wrangling.

Washington, Feb. 18.—Legislation providing for the retirement of Maj. Gen. Enoch H. Crowder, the wartime provost marshal general, with the rank of lieutenant general, was literally talked to death today in the house.

At the end of seven hours of hopeless wrangling and in the midst of a parliamentary tangle, the house was forced to adjourn, leaving the bill at the top of the private calendar, which cannot possibly be reached again this session.

Opponents of the measure passed by the senate and called up and set aside often in the house of late, formed and held a flying wedge that held back a larger element fighting for its adoption. Going down with the Crowder proposal was a host of highly important private bills.

After Representative Green, republican, Vermont, acting for the military committee, had made an earnest plea for the bill's passage, Representative Rucker, democrat, Missouri, led the fight against it. Representative Newton, also of Missouri, a republican, joined in the fight for adoption.

The chief opposition as expressed on the floor was based on the belief that of all high officers serving at home and abroad, General Crowder, now in Cuba as the special representative of President Wilson, should not be singled out for special recognition.

The soldier element, headed by Representative Johnson, republican, South Dakota, who quit the house to serve overseas, fought the proposal and friends of officers recently mentioned for promotion, insisted General Crowder had no claim to distinction denied to other men. Most of the opposition, however, was on the democratic side.

Girl Held for Throwing Children Out of Window
New York, Feb. 18.—A charge of tossing her two infant nephews out of a second-story window while their parents were sick was preferred against Celia Pargman, 20, who came here six months ago from Russia.

The girl was arrested at the Fordham hospital where she is suffering from a fracture of the skull received when she jumped out of the window after the boys, one of whom died later.

Physicians expressed belief that the girl was suffering from a form of insanity brought on by her experiences in escaping from the bolsheviks.

Liquor Tax Law Upheld
Frankfort, Ky., Feb. 18.—Kentucky's whisky tax law, imposing a tax of 50 cents a gallon on liquor in bonded warehouses in the state, is constitutional, according to a decision of the court of appeals.

Railway Unions Granted Time to Prepare Rebuttal

Labor Board Postpones Further Hearings on National Agreements Until First Of March.

Chicago, Feb. 18.—The railway labor board postponed until March 1 further hearings over the national agreements and also granted the request of B. M. Jewell, representing the employees, that he be granted until March 1 to prepare rebuttal evidence.

The board announced, however, that in the meantime it reserved the right to issue further orders or directions.

On March 1, the board will take up evidence presented by the following organizations in the order named: The Brotherhood of Maintenance of Way Employees, clerks, firemen and others, signal men.

E. S. Grable, president of the Maintenance of Way Employees organization, petitioned the board for a statement explaining that pay reductions cannot be forced on them until new rates have been established by law.

Strike between seven independent railroad employees' organizations and the union brotherhoods broke out again today before the board, in charges by the independents of attempts to control labor representation before the board.

Speaking for the independents, J. L. Eldridge, vice president of the Railroad Yardmasters of America, said the collective bargaining proposal presented by the unions to the board yesterday was another attempt to obtain recognition that the unions were the only representatives of the employees.

Peak of Lawlessness Reached in Ireland
Dublin, Feb. 18.—It is officially announced that the tracks of a railway line in County Donegal on Wednesday were diverted from the permanent way, to run into a lake between Casselmagor and Gweedore. The outrage was discovered, however, before a mishap occurred.

Today's official review says the report of outrages in the last week afford grounds for satisfaction. The greatly reduced number of casualties to crown forces, it adds, leads to the opinion that the recent lawless activities have reached the maximum and the arrests and seizures being made daily should result in a sensible improvement in the situation shortly.

A large quantity of arms and munitions was discovered by the military and police last night at the asylum of St. John of God, near Stillorgan, county Dublin. Two arrests were made.
