Four Dye Experts Failed in Germany For Aiding U.S. Men of International Scientific Repute Face Criminal Charges—Alleged to Have Given Formulas.

How greatly Germany is depending upon the manufacture and export of dye stuffs for the increase of her foreign trade, especially trade with the United States, is demonstrated by the issuing of warrants for the arrest of four experts, who are regarded as among the ablest of German experts in the manufacture of chemicals and dye stuffs.

The United States has been chief among the customers of Germany for dye stuffs. England has also imported in large amounts dye stuffs of German manufacture.

Improvements were made until at last higher quality dyes were being manufactured in Germany.

These four men are of international scientific repute. They have gained exceptional reputation only from their achievements but from their character.

Shortly after this nation was established, Russia came to the United States and attempted to do this he would have been arrested at Liverpool.

Financial

The New York Times.

By ALEXANDER DANA NOYES. Chicago Tribune-Omaha Bee Leased Wire. New York, Feb. 24.—Money on the stock exchange held at 7 per cent today, though with an outside rate of 6; foreign exchange and silver bullion declined sharply, and weakness in the industrial stocks was general.

Declines on the stock exchange were mostly fractional, but some of them ranged between 1 and 4 points.

No Valid Case. Except for the impending London conference between the allies and Germany, the market was quiet today.

Comparisons Misleading. Comparisons of the market today may easily be misleading, however, for the 7 per cent rate of interest.
