# Man, Freed From Town Boasts Only Woman Murder Charge. Sues Accuser

Walter Bardsley, Tried for Suspected Attempt to Poison Zimmerman Family, Asks \$31,000 Damages.

went a week of severe strain during his trial in the district court in Council Bluffs on the charge of try-ing to exterminate the family of his nearest neighbor and lifelong the church on a good financial basis, friend, W. E. Zimmerman, by pois-oning, began a suit Saturday against charge of the Christian church. immerman for \$31,000 damages. Bardsley was indicted by the grand jury and acquitted by a jury Feb-ruary 14, aiter a trial that lasted a week. The jury reached a verdict after 23 hours' deliberation.

The Zimmerman and Bardsley families are amony the real pioneers of the country, with more than 60 years' continuous residence to their credit, and on account of their wealth and prominence the trial was the sensation of western Iowa. Walter and William lived on opposite sides of the road, four miles west of Neola, all their lives. The road separates the farms, each more than 300 acres, and their houses are within hailing distance

### No Trouble Until Lately.

There had been no trouble until shortly prior to the poisoning inci-dents, when strychnine is alleged to have been placed in the Zimmerman family well on two occasions and at other times placed in the sugar, salt and other food in the pantry, the long series culminating in an al-leged attempt on the night of No-vember 4 to put 15 pounds of poison in the well.

It was on that night that Bards-ley was shot with two charges of birdshot. Zimmerman claimed he shot Bardsley at the well and Bardsley says the shots were fired by Zimmerman after Bardsley had been lured from his fireside to his garage where two men apparently were trying to get his automobile. Bardsley's petition covers four counts. The first count charges ma-

licious prosecution and arrest, which caused him physical and mental pain and shame, humiliation and disgrace, and for this he wants \$4,000 direct and \$2,000 exemplary damages.

### Alleges Scheme.

Count two charges the Zimmermans with a scheme to put Bardsley out of the fine hog business which the farmer had been following for years and covers the strychnine in-cidents of September 26. For this \$5,000 is asked.

Count four covers one phase of the November 4 incidents and in-volves all of the charges from the beginning of the prosecution until Bardsley's acquittal on February 14. Direct damages of \$5,000 and \$5,000 exemplary are asked. The final count covers the shoot-

ing of Bardsley, which he says oc-curred about 10 on the night of November 4 in his own dooryard. He wants \$2,500 direct and \$2,500 exemplary damages for this.

As a result, Mayor Renshaw is now trying to sell the jail, building and equipment, to the new county of Golden Valley, which has its county seat here.
