CHAPTER VIII

A Watcher and a Worker.

Benny Badger searched for some time before he found a Ground Squirrel's hole that looked as if its owner had finished it only a day or two before.

The place was so far from the spot where Benny had left Mr. Coy-ote that he did not believe he could call loudly enough for his helper to

For a few moments Benny thought that perhaps he ought to go back and tell Mr. Coyote that he had found a good place to dig. But he soon changed his mind.

"I'll just begin digging and say nothing," he remarked to himself.
"And perhaps I can catch this Ground Squirrel without Mr. Coyote's help."

So he set to work. But he hadn't dug very far into the hole before he beard Mr. Coyote's voice close be-hind him. That sly fellow had been following him all the time. "I hope the owner of this hole is at home." Mr. Coyote ventured.

At those words Benny Badger backed out of the hole and turned around.
"I'll let you dig a while," he said

Mr. Coyote thanked hou. But he answered that he couldn't think of accepting Benny Badger's offer.

I can stand his chuckling-if only he won't sing!" Benny said to himself.

pointed not to do the digging your-self," he explained. "And besides, you're a better digger than I am. So I'll let you tear this tunnel open, while I go around to the back door

and watch. . . You know, I have a very sharp eye."

Benny Badger looked at Mr. Coyote narrowly. It occurred to him that both Mr. Coyote's eyes were very sharp. Furthermore, his nose was sharp, too. And so were his teeth. Yes! on the whole, Benny thought, Mr. Coyote appeared to be an exceedingly sharp person.

"Very well!" Benny told him at last. "I'll do the digging, gladly—

for I need the practice that it will give me. You see, I baven't dug more than a half-dozen holes to-

Then he thrust his head into the opening he had already made. But before he had begun to throw more dirt behind him he pulled his head out again and called to his helper. who had moved a few steps away.

"If the Ground Squirrel comes out through his back door, please call me at once!" he cried. Mr. Coyote nodded his head over his shoulder and smiled.

"I will," he agreed. "And I'll ask you not to forget to dig hard, be-cause you know I'll be watching hard. And it wouldn't be fair for one of us to do less work than the

other."
Benny Badger replied that in his opinion Mr. Covote's statement was in every way reasonable And then he began to dig.

Benny would have made better time had he not stopped every few minutes to listen; for he did not want to miss hearing Mr. Coyote's

than a chuckle from the spot where in the most distressing circumstan Mr. Coyote sat on his haunches in ces, according to an ancient belief

(With apologies) I have taken my lessons from caddies, I have taken my lessons from pros,

But I still am a mutt at the drive and the putt And my brassics are worse, goodness knows. I wasted long valuable hours, In a past that is distant and dim,

With an elderly Scot who was always half shot, But of course I learned nothing from him. The next tutor I had was a Briton, Who said what I already knew,

That the habits I had were all utterly bad, And my stance was extremely askew, But the more that he twisted my muscles, The faster my knowledge grew dim Of the right way to stand with a club in my hand, And I also learned nothing from him.

Romance in Origin Of Superstitions

By H. I. KING. Divining by Books.

A rather common practice with those who "seek for a sign" is to open the Bible at random and find their answer in the message upon which their thumb rests as they part the finger at random on a passage of time trying to stay in society. He domer, Virgil or some other great dressed up from head to foot and author. Virgil was an especial fa-

vorite in this connection and the practice of consulting him continued iown to modern times, though the Bible is the book now generally used. During the middle ages the historic popular estimation the chief value in communications. of the Aencid was as an oracle. As late as the time of Charles I the Bi-

de had not entirely supplanted the Acneid for purposes of divination as is evidenced by the well-known story of how that monarch learned his fates by the "Sortes Virgilianae," as was called. This practice of divination b

books is said to have "originated in the respect and veneration of certain books arising from their wisdom and reputation;" and it is easy to com-prehend the psychology which in-duced the people of the middle ages te consult "Virgil the Wizard" and the leaves. In pagan times this di- leads man of a superstitious trend of vinatio nwas accomplished by placing mind today to turn the Bible into an oracle. But the incipiency of the idea dates back to the first introduction of letters, when to the common mind, there was something supernatural in the power of a few marks made in a certain way to convey from one person to another not merely ideas, but whole speeches, word for Virgil became so enveloped in a mist word; a feeling which is displayed today by remote tribes of savages was alluded to by the uneducated as "Virgil the Wizard;" and the unuse of the printed or written word (Copyright, 292), by the McClure Newspa per Syndicate.)
