A Local Tire Buyer Says:--"I admire the way you folks are going after the business and I honestly believe you should have the support of every tire buyer in town. I used to pay high prices for my tires because I thought it was the only way to get high quality tires. Of course I didn't realize that I was paying several IN-BE-TWEEN PROFITS which made the prices high. One day I read one of your advertisements and your "FACTORY-TO-USER" policy appealed to me. I realized that a manufacturer selling DIRECT to the public through a chain of stores could quote ROCK BOTTOM prices because he could eliminate the IN-BETWEEN PROFITS of the BROKER, JOBBER and RETAILER, to say nothing of the heavy expenses of traveling salesmen. "So I bought a STEPHENS TIRE-bought it on the strength of the advertising I had read and saved more than 50% over the price I had been used to paying. Today I have a full set of STEPHENS TIRES on my car and am so well satisfied that I never lose an opportunity of praising them to my friends."
