Shappers and packers both bought freely at ligures mostly 25@40c higher, with medium and strong weight packing hogs usually showing the most advance. Best bacon grades made a top of \$10.00 and bulk of the receipts changed hands at \$9.50@9.90.

Sheep—Something like 18,000 sheep and lambs were fecelved today and a rather dull packing demand caused an easier tendency to prices. Trade in both fat sheep and lambs finally developed at a decline of about 25c. Best handy lambs were oquted up to \$3.75@10.00 with heavy grades selling at \$3.55 and less. Some good ewes brought \$5.75, Indicating a probable top of about \$6.25 on choice lights. Very few feeding lambs are going to the country at present.

OIL-IS-THE-FORTUNE-BUILDER Our development plan is

NEW-SIMPLE-CLEAN-DIRECT \$20 buys the largest proportionate part in Oil profits ever known.

Some time ago we purchased a tract of land as an investment. It is now in the heart of one of the best Oil and Gas districts in the United States. Pipe lines run on all sides. We must drill offset wells, as there are producing wells within 200 feet of this land. The development work being done in this field, and the increased production coming in around us, has greatly increased the value of our land. We want to drill at once, and we will give investors, large or small, an opportunity to come in with us and develop the land for Oil and Gas. If you have a little money and want to get into a big deal at the bottom, now is your opportunity, as it will only last until we raise enough money to drill our first two wells. We do not sell stock. You are buying an interest in valuable property, and you receive a Warranty Deed for the tracts you buy. Even a single tract at \$20 now gives you the possibility of making a small formure.

An Authentic Oil Field Map showing location of our land, also our development plan will be sent you upon request. Write, phone or come to our office.

Newspaper Advertising Starts the Wheels

In November, business had a bluish cast. The financial waters were troubled.

Corn and wheat and cotton were tumbling—business was halting and hesitating.

Everywhere you heard the croakers say, "People are not buying."

Then the retailers took the cold plunge. They began to readjust prices and offer inducements.

And they advertised the fact—advertised it in the newspapers of their home cities. They kept at it—and kept at it.

After a bit, buying began to wake up—slowly at first, then in greater volume.

Progressive merchants who know newspaper advertising pulls progressively went at it harder.

Business grew better and better, and by the last part of December many merchants were reporting record-breaking sales, and, taking the country as a whole, business was good.

Newspaper advertising saved the day and made it possible for the merchants to clear their shelves and reorder from the manufacturer—thus loosening the clogged stream of commerce and setting the factory wheels in motion.

Newspaper advertising is the greatest single business force on this continent today.

New York Cotton.

New York, March 2.—Weak cables from Liverpool, a decline in foreign exchange, a pessimistic view of foreign political conditions and selling by spot firms and the south, led to a decline of 17@37 points at the New York cotton opening. Prices recovered rapidly, most of the initial loss being regained by the end of the first 15 minutes. There was southwestern selling early in the afternoon, but the market ateadied on covering on the better tone in the stock market and foreign exchange, with prices 20@24 points from the low points.
