Federal Judge M. J. Wade of Iowa

Peddlers of misinformation are guilty of a grave wrong against the community, says Federal Judge M. J. Wade

In handing down an opinion in a recent public utility case, Federal Judge Wade said:

"Two-thirds of the difficulties in public utility matters arise out of a misunderstanding or lack of information.

"There seems to be a determined effort in every city where these problems arise, on the part of some individual or individuals, to carry on propoganda which inspires doubt and suspicion—which destroys confidence in the officers of the law who have duties to perform in relation to such matters, and to convince the people that they are being robbed in the interest of the 'corporations.'

"The people will be fair to public service corporations if they only understand, AND THOSE WHO SPREAD MISINFORMATION AND MISREPRESENTATION ARE GUILTY OF A GRAVE WRONG AGAINST THE COMMUNITY."

RESULTS REMARKABLE SAYS NEW YORK MAN

Prominent Rochester Citizen Tried Ten Years To Get Relief, But Tanlac Is Only Thing That Helped Him.

JAMES J. BEASLEY of Rochester, New York.

One of the latest to testify regarding the powers of Tanlac, the celebrated medicine which has been accomplishing such remarkable results, is James J. Beasley, 102 Elmwood avenue, Rochester, N. Y. Mr. Beasley has been chief record keeper for the department of water works, city of Rochester, for 30 years and is a well known and highly respected citizen. In referring to the remarkable recovery of his health by the use of Tanlac Mr. Beasley said:

"I have been trying for 10 years to find relief from a case of dyspepsia. Nothing ever helped me to amount to anything until I got Tanlac. This is saying a great deal, for I did everything it seems that a man could do to find relief. Of course, I was hardly ever sick enough to go to bed and was most always able to keep going, but I just never felt right. At times during those 10 years my stomach would become sour like vinegar. I would have an uncomfortable bloated feeling after eating that would last for hours. I suffered a great deal from nausea. At times my heart would flutter and palpitate and I would become alarmed over my condition. My nerves were on edge all the time and I became irritable, nervous and restless. I had no strength or energy to do anything. In fact, I wasn't like myself at all. Even a week or two ago it was an effort for me to get out of my chair and I felt as stiff and clumsy as an old work horse."

These remarks apply to Omaha

The United States supreme court and the Nebraska state supreme court have decided unqualifiedly that in arriving at a fair rate for public utility service the valuation and not capitalization is used as a basis.

In spite of this conclusive proof rumors have been spread that we are seeking a return on so-called "watered stock."

These rumors are absolutely false and without foundation!

Our case is now before the city commission. We have furnished them with our books and our records. We have furnished them with expert testimony.

With this before them it is their duty under the settled law to arrive at a fair valuation of our property and then permit us a fair return on this fair valuation.

That's all we ask—a living wage!

Isn't That Fair? NEBRASKA POWER CO.
