House Votes for \$100,000 Fund to Pay Hail Losses

Bitterest Fight of Session Ends With Passage of Measure to Finance State In-

surance.

Lincoln, March 4.-(Special.)the lower house came to an end loday when the state hail insurance law, carrying with it an appropriation of \$100,000 to start the state

anew in the hail insurance business, passed by a vote of 53 to 44.

The state administration, state socialism, alleged scandals in state government and personalities played a part in the bitter contest which, beginning at 2 Thursday afternoon, did not end until 4 this afternoon. Democrats, nonpartisan leaguers, six members of the Douglas county delegation and others aligned themselves against the opponents of the

Incidentally Representative James Rodman of Kimball predicted that his stand, as leader of the opposi-tion, had been heralded as his political downfall.

"Maybe it is," Rodman shouted, "but I will not change overnight for political expediency my convictions that this bill is a step toward state Continuing, Rodman questioned the reason that induced Representa-

Bill to Establish tive Snow of Chadron to change his stand on the bill.

Questions Snow's Change. .

"Last night Snow was for it to the dotting of an i.and the crossing of a t," Rodman declared. "Today he is leading the fight for the bill." Rodman attacked the bill on these points: First, he declared it encouraged state socialism. Second, he declared that there was no guarantee that the \$100,000 would be returned, especially if there was much hair this year when the losses would run hundreds of thousands of dollars beyond the revolving fund. Third, he declared it was utterly unfair to cut premiums below those of regular insurance companies and attempt to compete with them, Last, he declared that the zone charges worked an unfair hardship on western Nebraska farmers who were more interested in cattle than wheat. Friends of the bill declared the state had the same right to appropriate money for hail insurance as for a state fair or a state scrum plant. They also pointed out that the very life of the state depended on the success of farming, its only industry and steps must be taken at this time to alleviate the financial

stress facing the farmer. Governor's Stand Question. Rodman quoted J. E. Hart, secretary of the department of trade and committee on education, which reported it out this morning.

The homeopaths and eclectics, who supported the bill claim the university of the committee of the commerce, as being against the bill. He also declared that Hart told him Governor McKelvie was against the

"That statement is false." Representative Vance shouted. The governor told me he was for a 'good' Lobbyists for the measure said at the univerpermits three days to put a motion to reconsider. It takes a majority vote of 51 to pass such a motion. The Smith bread bill was resurrect-

rnor told me he was for a 'good' record told me he was for a 'good' a meeting of the committee considering the proposed revolving fund cut rom \$250,000 to \$100,000.

Representative Good read figures, which, he declared, showed that in the printing revolving fund, money appropriated for printing alone, \$1. from \$250,000 to \$100,000.

Representatic Good read figures. which, he declared, showed that in the printing revolving fund, money appropriated for printing alone, \$1,-800, had gone for stenographic and ates of the college acquire diplomas multigraphie bire.

"I fear that might be the same per cent become surgeons. With our hail insurance revolving iund," Good said.

"I fear that might be the same per cent become surgeons. He claimed that the university rejund," Good said.

Representative Axtell declared on the courses to be offered by the that this \$1,800 had been made up

properly by the finance department. HOW TO AVOID IT

Colds are due to germs. No one can prevent the germs from getting into your nose and throat. But you can help keep plenty of strong, vigorous, "antibodies" in your blood to fight and kill off the nasty "cold germs" before they do you any

perms" before they do you any harm.

To develop these germ destroying "antibodies" properly, you must have plenty of pure rich, red blood and a strong, vigorous constitution—In fact, this is the best preventative against almost any disease.

If you are weak, nervous or run-down, or subject to colds, take no chances. One day you may develop serious 'throat, bronchial or lung trouble or perhaps pneumonia and you may go off like a shot. Therefore commence to enrich your blood and fortify yourself against "disease germs" today. To build more and better blood and make stronger nerves, there is nothing superior to NUXATED IRON as it contains organic iron like the iron in your blood combined with a product representing the principal chemical constituent of active living nerve force for feeding the nerves. Nuxated Iron may therefore be said to be both a blood and a nerve food. It often increases the bodily and mental vigor, strength and endurance in two weeks' time.

Over 4.000,000 people are using it annually. It has been highly endorsed by former United States Senators, U. S. Army Generals, many physicians and prominent men. Even the Pope at Rome mentioned it favorably in a communication to the Proprietor of the Pharmacy Normale of Paris.

Satisfaction guaranteed or the manufacturers will refund your money. Beware
