¶ You won't find that in The Bee_Morning and Evening_today.

The Bee is Not a "Warmed Over" Newspaper Nowadays

I The Bee doesn't have that "warmed over" taste.

I The news you find in The Evening Bee is distinct and different from that you read in The Morning Bee-and vice versa.

The Policies Are Different

¶ The Morning Bee specializes in state and national news, in market and financial reports, comment and gossip-carried by Associated Press, Chicago Tribune-Omaha Bee leased wires and special telegraph and cable from every part of the world.

The Evening Bee specializes in local news and in entertaining features.

- The best features and the most important news are in both.
- 1 But the emphasis is different.
- ¶ Not only the most important local news is in The Evening Bee, but the humor, the women's affairs, the human interest of daily happenings in and about Omaha are there.
- The Morning Bee carries important local news-but places emphasis on the big news from everywhere-politics, trade, conventions, agriculture and the like.

The Two Are Not the Same

The difference is so marked that there is enjoyment in reading both.

" Many Omaha men and women read The Bee only - both Morning and Evening-and like it.

Why not you?
