it stops itching

Don't continue to be tortured by that wretched skin trouble. Resinol is what you want to relieve the itch-ing and heal the eruption. Its pure soothing ingredients seem to get right at the root of troubles, like eczema, usually clearing them away in a surprisingly short time.

Try a jar today—it hastens the heal-ing. Sold by all druggists.

## ADVERTISEMENT **IF BACK HURTS BEGIN ON SALTS**

Flush your kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake, by flushing the kidneys occasionally, says a well known authority. Meat forms urie acid which clogs the kidney pores so they sluggishly fil-ter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable phar-macy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes à delightful effervescent lithia-water drink which all regular meat eaters should take now ing serious kidney complications. | the at drug stores.

Chamber of Commerce

Secretary at Fairbury

Fairbury, Neb., March 9.-(Spe-cial.)-Harry J. Moss, secretary of the Nebraska Chamber of Com-merce, spoke to 100 men at the noon luncheon of the Fairbury Chamber of Commerce on the subject, "The Nation's Balance Wheel of Progress." The wheel is wabbling and in order to balance it it will require teamwork; 70 per cent of the inter-ests of Nebraska are agricultural and it behooves us to study the farmers' problems Mr. Moss empha-sized. He called attention to the fact that every year more of the land is tilled by tenants. On the labor situation he warned against listening to demagoges who array one class against another. To better conditions, he said that the laboring man must give a day's work

for a day's, wage, and called atten-tion to the fact that a bricklayer's work was now 700 brick a day and that in prewar times the day's work was 1,500 brick, although the wage paid now is much higher. He said each class is dependent on the other and what is harmful to the interests of one class is also harmful to all classes.
