A WONDER SALE

of
500
U. S.
Army

Hand Trunks **4.95** Sale Price

This is a sort of sawed-off steamer trunk in appearance and it looks as if it would last for 100 years. It is 20 inches long, 16 1/2 inches high and 9 inches thick; made of heavy indestructible fiber and with the lock and clasp and corner buffers of a trunk; it will hold twice as much as the average suit case, yet it isn't too big to take along as hand luggage on a railroad trip, and it will fit neatly on the tonneau floor of an automobile; the lock and clasp and buffers and hinges alone look as if they were worth more than the price asked; the reason is that the thing is really an army officer's field desk and filing cabinet, fully fitted up inside with filing devices; but the demand for army officer's field equipment no longer exists, so you can dump out the filing devices and lo!—You have a hand trunk! On sale Saturday, each, **4.95**
