What is This Wonderful DELTOR?

HERE is the true answer about this revolutionary new invention—patented all over the world. It is not a pattern, but a new help in home sewing—an addition to the Parisian style of Butterick patterns that means the most wonderful new possibility of economizing, and securing astonishingly perfect results, that has ever come to the women of America. In one, the Deltor combines—

1 A Guide that Saves 50c to \$10 on Materials

NOT one layout chart for a single size and width, but a separate chart for every size, and every width of suitable material—laid out by experts—always the right way of the weave—to use every inch of fabric, and to save you from 50c to \$10 on materials alone!

2 A New "Putting-Together" Picture-Guide

EACH step in putting together that an expert would take—pictured so simply, explained so clearly, that all you have to do is to follow with your needle—and you almost magically attain the perfect fit, set and "drape" that say, without words, "Fifth Avenue" or "Paris."

3 The Finishing Touches of Paris Itself

EVERY single detail, every tiny touch that gives a garment individuality in the clever hands of the Parisian modiste—imparted to you by instructions that the least skilled of needlewomen can follow—and achieve the unmistakable effect of PARIS!

for Fashions with the charm of Paris
for Money-Saving in the home
for Authority in Etiquette
for Fiction
