Extended Slump Out of Question, Says Executive

Reports Indicate Number of Unemployed Will Be Reduced-Conditions Not So Unfavorable.

By HOLLAND.

James A. Farrell, president of the United States Steel corporation never has wavered in his conviction that permanent depression in industry and in business in the United States is inconceivable. During the somewhat dark days of last autumn Mr. Farrell, looking ahead, ventured the prediction that in the spring visible evidences of improvement would be furnished. He was anxious to hold our foreign trade and to increase it. saying that about 20 per cent of the products of our industries constitute a surplus after our domestic markets have been supplied. He believed that t would be possible to market this surplus elsewhere than in the United States and this of itself would stabil-

could have done. In Wall Street
there will always be stretches of time
in which the attention of financiers
and business men is directed to some
particular branch of the markets or
some special phase of the situation,
and in which the stock market
merely registers the inferences of the
real investing community regarding
occurrences in such quarters.

Last November, for instance,
everyone was watching the fall in
prices of commodities. In December, little was talked about on Wall
Street except the forced selling by
companies or individuals of their
holdings of securities and merchandise, in order to meet pressing maturities of credits, a condition of
things greatly emphasized by "sacrifice sales" to raise money for the
fourth income tax installment or to

Why They Were Confident.

Increasing activity will be a feature of
the springs is duscrial life and the number
of unemployed will be steadily reduced.

Reports of membrand that in suppring months an improvement slow but
confidence to a considerable revival of
the cars of President Harding a few
days ago are in like with statements which
were made last fall by some of the ablest
ment in American industrial nettivity.

Reports of this kind which were brought

were made last fall by some of the ablest
men in American industr

Why They Were Confident. Why They Were Confident.

Opinions of this kind were reported in this column from time to time in the late fall and early winter. Now President Harding is assured by leaders in the business world that the improvement is really under way and that it will be continued provided only the administration and the legislators at Washington act with such wisdom as to justify the execution.

Parents' Problems

How can a little girl of 6 be helped to overcome her fear of

strangers? If the stranger to the child is some one well known to yourself, mention this to the little girl; say, "Mether would like her friend to know her little daughter." Explain to the child, when alone with her again, that strangers are like other people,-except for the fact that we do not yet know them!

Where It Started

Infantry Drill. The idea of using drill to move the bodies of men about, originated with the famous Greek and Roman formations-the Phalanx and the Le After the introduction irearms, individual drill became ne essary. Frederick the Great Prussia started the soldier and square

drill, originating-many of the move ments that are part of the present
