Jewell Presents Labor Agreements

Says Proposed Negotiations on **Rules Would Cost Union Employes** Approximately \$6,000,000 Annually

Chicago, March 24.-Three rail road presidents, members of the former labor committee of the Association of Railway Executives, will be summoned to testify before the railroad labor board if a request of the employes is granted. Labor representatives asked for the ap-pearance April 4, to testify concern-ing their attitude on national boards of adjustment.

Labor began its task of refuting arguments of the carriers against national agreement. B. M. Jewell, president of the employes' depart-ment of the American Federation of Labor started in to dispose of ap-proximately 1,000 printed pages of argument.

Negotiating rules and working agreements on each individual railroad as proposed by the railroad executives, would cost the railroad workers more than \$6,000,000, and require the services of more than 5,000 men, it was stated by Mr. Jewell.

Means Big Expense.

'If the request of the conference ciation of Railway Executives is granted," said Mr. Jewell, "and the national agreement abrogated by de cislon of the board remanding the subject matter of rules and working conditions to the respective railroads and committees of their employes for conference on individual lines. the employes' conference committee on each railroad would necessarily be composed of at least one man from each craft at each point on the railroad. For the 107 roads listed. the figures show that the services of 5,158 commiteemen would be required, at a total daily expense of \$65,760 and a total expense for 90 zation of America promoted. days of \$5,918,442, besides additional Foe of Divorce. expenses. "Much of this enormous expense

on both railroad management and railroad labor, together with the consumption of valuable time of the highly skilled and essential railroad ficials and railroad employes should be eliminated by co-operation between railroad managements and the recognized labor organizations, through the creation of a conference committee authorized to represent, on the one hand, railroad management and on the other railroad employes of the particular crafts."

He cited figures to show that 75 per cent of the 455.776 shop employes of class 1 carriers are members of their respective craft or-

ganizations and declared that since men to vote. 1912, when the railway employes He was an advocate of universal department of the American Federa-

A Cardinal in 1885.

In 1883 Archbishop Gibbons led delegation of Catholic prelates to Rome and was chosen by Pope Leo XIII. to preside over the third plenary council held the following year. His work in this office of trust and other activities won him appoint-ment as a cardinal in 1886.

It was Cardinal Gibbons who laid W. G. Besler, president of the Cen-tral of New Jersey; E. E. Loomis, president of the Lehigh Valley and H. E. Dyram, president of the Chi-cago, Milwaukee and St. Paul, are distinctions was the honor of being the executives named. All were distinctions was the honor of being members of the labor committee the first American Roman Catholic prelate to participate in the election of adjustment. Active in War.

What was described in the public what was described in the public prints at the time as the most mo-mentous ecclesiastical gathering of a generation was the convocation of the Gatholic hierarchy at Washington last year. It was the first time since the third plenary council of Baltimore in 1884 that all the arch-bishops and bishops of the church in the United States had been called

together. Last June the cardinal offered the prayer which opened one of the liveliest sessions of the republican na-tional convention at Chicago. Cardinal Gibbons was active in

He had been just as outspoken in his views since peace was declared. "If the members of the red ganization don't like this country let

them go home," is one widely quoted recent utterance of the great prelate. With Secretary of War Baker Cardinal Gibbons was named a few months ago as a member of the namonths ago as a member of the na-tional advisory committee for the \$10,000,000 Palestine restoration fund campaign which the Zionist organi-ration of America promoted.

Former President William H Taft called upon Attorney General Daugherty just before the newspaper men were ushered in, and remained during their conference.

One of the very first inquiries put to Mr. Daugherty was where the authority lay for allowing a federal prisoner to make the trip to Washington and return unguarded. "I am satisfied there is full au-

thority," said the attorney general. "I have not looked it up, but I am satisfied it exists." "What precedent is there for it?"

There has been much pressure lately to force a general release of political prisoners, comprising those who violated the espionage act and who obstructed the draft laws, through speeches and action Mr. Daugherty was asked if the Debs case would be the basis of a general policy in this matter, but he said: "No, this is an individual case and it stands alone.
