### Receiver Named For Refining Co.

**Omaha Plant Will Continue To Operate at Full Capacity.**

John Bekins, proprietor of the Omaha Van and Storge company, was appointed receiver of the Omaha Refining company yesterday by Federal Judge J. W. Woodrough. The plant will continue to operate at full capacity, according to officials of the company.

The appointment was made following the filing of involuntary bankruptcy proceedings against the company Thursday by several of the largest creditors. Liabilities of more than \$300,000 were alleged in the petition.

Practically the entire output of the Omaha Refining company is consumed by local demand, Kansas City being the nearest point to Omaha in which other refineries are located. Arrangements to insure an ample supply of crude oil have been made by the receiver.

### Man Seeking Divorce Says Wife Has Married Again

Alleging that his wife, Mary, married another man July 30, 1920, William Saunders of Thomas county, Nebraska fled an answer in district court here yesterday to her suit for divorce, which she filed February 9, 1920. Her divorce has not been granted here, according to court records.

She charged that her husband exposed her to all manner of abuse and that he often ordered her to leave their home. She said he had property and also a good income as a rural route mail carrier. Saunders alleges that his wife left him April 19, 1914, stating she would never return. They were married in November, 1913, by the Rev. Charles Savidge in Omaha. Saunders alleges that "in utter disregard" of her marriage to him, she married the other man.

### New System of Lighting On Dodge Street Grade

The new street lighting system approved by the council, will be initiated in the district affected by the Dodge street grade—Seventeenth to Twenty-fourth street from Capitol avenue to Douglas streets.

Instead of two twin standards on diagonal corners, there will be a single standard on each of four corners. They will have white globes and be three feet closer to the street level, according to Commissioner Zimman.

Three intermediate lights, besides those on the grounds will circle the high school grounds.

### Man Carrying Baby Hit by Car Driven by Auto Club Secretary

Carrying his 18-months-old baby, John Gilbert, in his arms, and accompanied by his wife, John Eicher, Papillon, was knocked to the pavement while crossing the thoroughfare at Sixteenth and Douglas streets, yesterday afternoon by Judson L. Hasinks, secretary of the Omaha Automobile club, 1809 Laird street.

Eicher suffered bruises about the body and legs and cuts about the face. He did not lose his hold on the baby, however, so holding the little infant that it merely cut its tongue and bumped its head as it struck against its father when he fell.

The mother went into hysterics. The trio was taken to Central police station, where the injured father and child were treated by police surgeons, the mother calmed, and all taken home. Eicher also declined to prosecute, but declared Haskin "was going a little too fast."

The mother declined to prosecute Haskin. Haskin said he obeyed the traffic officer's signal and drove west on Douglas street.

"I slowed up," he said, "but in order to make the hill, I stepped on her."

Darius Brown, ex-mayor of Kansas City and head of the Moosehart institution at Moosehart, Ill., was the principal speaker at the meeting of the Kiwanis club at the Rome hotel yesterday noon.

"The way to assure the nation a substantial and loyal manhood and womanhood is to start with the children and rear and educate them properly," he said.

"Every child is entitled to a clean place to live, plenty of sunshine and fresh air; plenty to eat and an edu-

Education which will send him into the world a force for good. "Children with the proper training will be true Americans when grown. Boys and girls who have had a healthy rearing will never be disloyal or contumacious evil."

In England "Miss" was formerly applied only to females under 16 years of age.

### ONE MINUTE STORE TALK

"You folks are right about it—America, in her splendid isolation, can go ahead and make this continent just what she pleases. If everybody pitches in and buys the things they need for just their ordinary comforts—the wheels of industry will whirl a song of happiness and prosperity for all America. It certainly is up to us," said a thinking man buying an Easter clothes outfit.
