g gang, probably, and the headship of his gang, ugh the mainten of di-neer and chief engineer. Though they were not as well advanced in many other ways as we are today, those who lived in the seventeenth and eighteenth cena strongly all-around ex- turies were possessed of a wealth of he will prohably stay in weather wisdom, which has come of chief engineer, at a down to us in the form of couplets, lary of something around the truth of which has been dem ear. However, ability is oustrated by scientific observation of wherever it is found. Pres-the weather, coupled with the use folden of the Burlington of all manner of delicate instruments. legal light of that railroad i some of which have been invented ok the post of leader. His within the past few years. One of however, H. A. Safford, these couplets says that; al operative man, who "Mackerel scales and mares' tails rom the station agent Make lofty ships carry low sails."

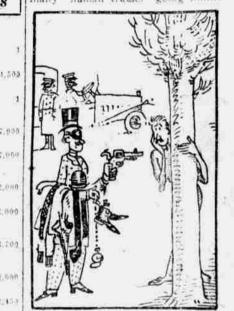

or, translated into simple prose that e school where you either a mackerel sky presages rain and

ion't deliver. If you de- stormy weather, sanother step just above The reason for this is that the they put the man who small, flaky clouds which go to make results, and the rise is up the "mackerel sky"-clouds which are known as "cirro-cumulas"- contain a high percentage of moisture. I to the active boy who mistake of going into the department, thinking he of a "mackerel sky," therefore, may and it is a matter of only a tew hours in the game that way, A be taken as an almost infallible ine job, and besides the beinght, there is another iandicap. You get no the time and, as a storm usually earn railroading or show brings clear weather in its train, a ability and you cannot sky of this kind may also be taken shine a mental worker in ne. Better be a section clerk, if you have your temperature.

Copyright, 1921, by the Wheeler Syndi-Gray's job 40 years from

During the recent heavy snow th Depity Constable observed a good many human tracks going thither

and youder, and upon tracing them to their lair he found that most of

them led to or from a heating 6.755 stove and chair. . . .

Tobe Mosley finds the world has changed a heap in the past few years. He recalls when the old fashioned thici used to steal a person's silver watch and go on home perfectly satisfied with his day work . . .

Cricket Hicks is rapidly become a one of our most noted singers, as he has just sent a dime away for another book of one hundred of the nost popular songs.
