Five girls are enrolled in Omaha Retail No. 1, which will be formally instituted about the middle of April.

The Food Value of an article of food is determined by the amount of actual nutriment it contains after everything which the body cannot use is eliminated.

In a pound of beefsteak, for instance, there is only a little over five ounces of real food which your body can use as nourishment.

In a quart of

ALAMITO MILK

there are four ounces of solid matter, consisting of the fat of butter, the casein of cheese, milk sugar and some calcium or lime. And this solid matter is all pure nutriment. Every particle can be used by the body. So that the actual food value of a quart of our milk is as great as the food value of 3 1/2 lb. of beefsteak. And it costs about half as much.

Problems That Perplex

Answered by BEATRICE FAIRFAX

Go to the Library.

Fals: wonder sometimes that so few people seem to know what a splendid library we have in Omaha. There is a reference section on the first floor there where almost every kind of information is obtainable. You do not have to have a library card in order to take advantage of this department. An obliging librarian is in charge. Go in and tell her what it is you wish to look up. Presto! In what will seem like the twinkling of an eye she will have placed before you pages of information on just the very thing you want.

Among other books available in this reference section are volumes on entertainments for all occasions. If you wish to look up games for parties, you will find quantities of useful, helpful suggestions. You say you are high school graduates. If so, you will know how to use the books quickly and to advantage. You will find more information at the library than I could write out for you, and can probably make a selection more satisfactory to yourselves than mine would be.

Why not take a chaperon, perhaps the mother of one of you, if you go to Fremont with your boy friends.

Misc and games are favorite evening pastimes.

How long should you go with a boy before kissing him? What you should ask is, "How well should I like a boy before kissing him?" A kiss may be a cheap admission of a common mind or it may be a beautiful expression of a pure and holy regard. When it is truly and sincerely the latter, there should be no objection to it.

Subscriber: Send me a self-addressed envelope and I will send you some names from which you can choose.

Congratulate I. M. A.

Dear Miss Fairfax: I am a boy of 21. I read the letter written by I. M. A. and thought that it contained more common sense than any I have read for some time—but we are not all alike. I. M. A.

For myself I am deeply in love with a very good, old-fashioned girl, but figure myself out of luck, because I don't think that she returns my love.

While I would gladly give my life for this girl if need be I wouldn't make her unhappy by forcing my presence upon her.

Well, I am getting into history now so will close. I just wanted to congratulate I. M. A. and tell her to keep it up. Thank you for your time.

Margaret Brown, Manville, Ia. The letter which I mailed to you in response to your inquiry has been returned to me unopened. If you wish to hear from me personally, write, repeating your question and enclosing a stamped, self-addressed envelope for reply.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Back-ache or have Bladder trouble.

Meat forms uric acid, which excites and overloads the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful, effervescent, lithia-water drink, which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.
