Expect Large Squad Out for **Ball Practice**

Prospects Bright for Good Team at Nebraska-Start Workouts Monday on New Diamond.

Lincoln, Neb., April 2 .- (Special.) -Official base ball practice of the Nebraska university squad will start Monday. A squad of more than 20 candidates has been working out daily for the past three weeks, but a general call has not yet been issued.

The new Nebraska diamond has been completed at the state farm campus. This will be the best base ball playing grounds that the city of Lincoln has ever had. It is in excellent condition and everything s in readiness for the opening of Nebraska season. Bleachers nd backstops have been erected.

Expect Large Squad Out. Between 50 and 75 candidates are expected to try out for the team. This number will include several veterans from last year's squad.
The Cornhuskers have lost six veterans since last season. Captain lickett and Reynolds, mainstays of Nebraska pitching staff, are not back in uniforms this season. Smithregular catcher, did not return to school. Linn and Russell, infielders, and Swanson and Hubka, outfielders,

The freshman team will train this year under the direction of John Pickett. Pickett may also assist Coach Schissler in training varsity pitchers.

Ray Clement, captain of the basket ball team, has been burning up things around the keystone sack. He looks like the most promising candidate for the second base position. Willimer Beerkle is another aspirant who has been showing base ball ability. He is a good hitter and will be used in the infield.

"Wild Bill" Donovan, New Manager of Philadelphia Nationals, Has Tough Job On His Hands.

Gainsville, Fla., April 2.—(Special.)—Wild Bill Donovan, new manager of the Phillies, always has worn a smile during his long base ball career. Perhaps he'll keep it all through the coming season, but just now it looks as if he is up against something that is no laugh ing matter. If he can keep the Phils out of last place his year's work will be a success. Indications are that it will take a lot of luck and cunning and a bundle of cash to land anywhere but eighth in the National

league race.

To begin with he tackled a job where he didn't know a lot about the players, on hand, his major league work having been in the American league. Then a bunch of his men were holdouts and didn't report until late, so that the team is fortnight behind its rivals in cona fortnight behind its rivals in con ditioning. Finally, one of his re-liable and capable players, Gene Paulette, has been cast into the waste basket of damaged goods by

Judge Landis.

Tough Future in Prospect.

Undoubtedly there will be some trading and purchasing done by President Baker to fit up the team, but he has little material for trading to the team, but he has little material for trading and it takes a big bank roll to buy even mediocre players. It looks like Donovan's only chance to wear a genuine smile next fall is to have a lot more than his share of luck. Perhaps he'll be able to procure a couple of youngsters who may turn out to be stars.

Out to be stars.

Art Fletcher at short appears to be practically the entire field, and while he is along in years, he can hold his own with a lot of regulars at the position. Donovan also is in great need of one high class catcher and a comple of real pitchers, men who can take regular turns on the slab. That is a lot of material to be needed at this late stage of the game.

Only in the outfield are the Phils secure. In Stengel, Williams, Neale, Meusel and Lebourveau, Donovan hasn't a crew of outer gardeners who stand out as stars, but it is a set cards of one of the other National
