Our customers who bought EARLY last season SAVED MONEY

Looking at the future from all angles we believe the Early Purchaser this year will be ahead. COAL PANICS are caused by the public neglecting to accumulate SAFE RESERVE SUPPLIES. On account of unsettled conditions and the general trend of prices DOWNWARD, many consumers have been, and are yet, inclined to delay buying. IF this is continued during the next three months we are bound to have a GRAND SCRAMBLE by consumer and dealer, which will naturally FORCE UP THE PRICE.
