**Portion of California
Oil Reserve Opened
To Private Interests**

Washington, April 16.—A portion of naval oil reserve No. 1 in Kern county, California, will be thrown open soon to private operators for drilling on a royalty basis. Secretary Denby announced, in an effort to end the draining of the government's oil lands by wells drilled along the borders of the reserve.

Bids for the sinking and operation of 22 wells in double rows along the northern and eastern boundaries of the reserve will be received, either at San Francisco or at the Navy department until noon, April 25. Bidders must state the royalty they will pay the government in crude oil at the wells or in fuel oil, laid down at the Pacific coast, as the navy may elect. Mr. Denby is acting under author-

ity of the last naval appropriation bill, which gives the secretary power to operate naval reserve lands in California, either directly or by lease, whenever the interest of the government would seem to demand.

One good pair of gloves with care will outwear three cheap pairs.
