

Youngsters Play Leading Roles in Marital Tangles

Judges to Consider Children in Deciding Stillman, Stokes and "Co-Operative Husband" Cases.

Chicago Tribune—(Special) New York, April 17.—Youngsters are going to play the leading roles in the final acts of the three absorbing marital tragedies being staged here.

When the family scandals of the "Co-operative" husband or Andrews case, and the Stillman and Stokes cases have been fully aired, the judges will sit back and figure out the "best way out" for the "sake of the children."

Today, with the Andrews case holding the public spotlight during a lull in the Stillman and Stokes cases, a number of features were revealed involving the children, their mothers and the "other women."

75 Persons Dead; Hundreds Hurt By Tornadoes

Several Hundred Injured and Damage Running Into Millions Caused by Twister in South.

By The Associated Press. Memphis, Tenn., April 17.—Seventy-five persons reported dead, several hundred injured and property damage roughly estimated in the millions made the toll of a series of tornadoes which broke late Friday in northeast Texas and swept eastward Saturday, over sections of five states into Georgia.

Wire reports were meager, due to interrupted communications. Arkansas with 50 persons reported killed in Hempstead and Miller counties, suffered the heaviest loss of life.

The storm apparently broke in Smith county, Texas, swept sections of Good, Gregg, Case and Bowie counties and passed into Miller and Hempstead counties, Arkansas, where the reported dead list tonight had reached 50.

Crosses Into Arkansas. Crossing into Arkansas the storm skirted Texarkana and cut a swath a half mile wide through a heavily wooded section of Miller and Hempstead counties.

Near Hope, Hempstead county, the list of reported dead had reached 30, 15 others were said to have lost their lives near Prescott, and five persons were reported killed at Steen, near Columbus, in eastern Mississippi and one at Sontag, 16 miles east of Brookhaven.

Leaving Mississippi the storm swooped down again in northern Alabama. In the vicinity of Columbus 7 persons were reported killed and three others lost their lives in Ralph, Tuscaloosa county.

In Birmingham 10 persons were injured and 100 homes in the suburbs damaged.

Rain Floods Memphis. In Memphis, a torrential rain storm damaged sewers and drainage canals.

At Rome, Ga., several persons were injured and property damage estimated at \$200,000 done by the rain.

The rainfall in Mississippi was reported the heaviest on record. At Jackson six and five-tenths inches of rain fell from noon yesterday until early today, causing considerable damage.

Train service was disarranged and in some instances suspended because of washout near Laurel, Miss., and toppling into a ditch. One passenger was killed.

Blizzard at Des Moines. Des Moines, Ia., April 16.—(Special Telegram)—All records for April snowfall were shattered here with a fall of over six inches recorded after an all night and day blizzard.

The blizzard struck the city late Friday night and continued with unabated fury throughout the day.

It was preceded by a heavy rain and the fall was wet and soggy. Crops blanketed in this coating of soft, damp snow, it is believed, will not be affected by the colder temperature which followed today.

In the city street car service was paralyzed practically the entire day. Every effect was extended to provide service, but brought little success.

Quakers Place Damage in Erin At \$20,000,000

Society of Friends Report Investigation on Conditions in Ireland—25,000 Families in Need.

New York, April 17.—The American Committee for Relief in Ireland made public a report of an investigation of conditions in Ireland by a unit of the Society of Friends, in which the Quakers asserted that material damage "inflicted by the British forces within 12 months amounts to approximately \$20,000,000."

The unit sent to Ireland by the relief organization in February also reported there were 25,000 families in Ireland in pitiful need of instant help from the American people.

These 100,000 people, said the report, were composed of men and women who have quietly gone about their peaceful pursuits all their lives and who have refrained from taking part in armed activities.

The report did not include an official estimate of "malicious damage" done to Dublin, but said that between October, 1920, and March, 1921, "claims for malicious injuries, including both material damage and death, have amounted to \$94,899 pounds."

The awards granted cut these claims to \$23,938, continued the report. "We can hazard only the approximation that the material loss in Dublin the past six months did not exceed \$25,000."

The unit's figures of \$20,000,000 material damage in Ireland, said the report, coincides substantially with the total figures collected by Irish republican statisticians, and it should be noted, are less by \$8,000,000 than the estimate given us by a responsible crown official.

The report estimated that to repair the \$20,000,000 damage to Irish shop buildings, creameries and private dwelling houses would cost \$25,000,000 unless the cost of labor and materials was reduced.

The number of buildings damaged or partially or wholly destroyed, the report estimated, was upwards of 600.

"Irish republican statisticians," says the report, "place the number of property units destroyed at upwards of 2,000, but this includes not only buildings, but individual shops in buildings, their contents, isolated farm buildings, hay racks, etc."

Regarding labor conditions the report said: "We may point out that even
