Damage by Freeze. Good buying of May developed on the broak under \$1.25, while stop loss selling by the big commission houses was of-fective from \$1.25% down. Cash houses picked up the offerings on the break. Numerous reports of freezing weather from all over the winter wheat belt were freezived. Advices from Ellis county. Kan, one of the largest in the state claimed 49 per cent damage. Export business in wheat was under way although no figures were given out. Export buying of corn was the best in weeks with over 100,000 bushels sold here and 150,000 at the scaboard. Indications were that more business was done than bushels. Stocks are on the decrease with a loss of 1,552,000 bushels in the viable ast year, it being the first big drop so far. Receipts were 145 cars. Break in Oats.
