A free municipal concert will be given Monday night, April 25, at the Auditorium. The mere announcement will probably be sufficient to attract a large audience, so rapidly has the reputation of and appreciation for these concerts grown.

UPHOLSTERY DECIDES FATE OF AUTOS
A Periodical "Clean-Up" at Dreshers Keeps Your "Boat" Appealing and Really More Valuable.

It isn't a question of what make "boat" or auto you ride in, or what you paid for it; it's rather a question of HOW you keep it that decides the point of value.

For instance, if you cared to sell your automobile today, what would be the first thing the prospective purchaser would look at—yes, even before he examines the engine?

Why, instinctively he would look at the upholstery, of course. He would be biased or opinionated in accordance with the brightness and cleanliness of seat upholstery, back cushions, sides, etc.

In other words, if the upholstery of your car is bright, spick and span, cheerful and without a suggestion of dirt or grease, your prospective customer's opinion of your car goes up one hundred fold.

And, even if you are not thinking of selling, you'll at least feel better riding in a car with absolutely flawless upholstery.

Dresher Brothers, the immense Cleaners and Dryers at 2211-2217 Farnam St., CLEAN the upholstery of any automobile WITHOUT removing any of the fittings whatsoever. Just drive your car to the plant and in a few hours you call for it, finding it a thing of beauty as far as the upholstery is concerned. You couldn't imagine how beautifully Dreshers do this work unless you actually see the results on YOUR car. You'll simply stand back and wonder how it could be done. And the price for the entire cleaning job is so little that you will wonder why you hadn't had such work done before.

Dreshers' experts first BLOW every atom of dust and dirt from the upholstery, then clean the fabric with a process all their own—they clean marvelously. In fact, they do such elegant cleaning that you would think the entire upholstery would have to be removed to allow of such work—but not an inch of material or covering is removed during the cleaning process.

Better phone Tyler 0845 and tell Dreshers when you are going to bring down your car and their cleaning experts will be quite ready to tackle the job. Do it and you'll be an enthusiastic booster for Dreshers' Auto Upholstery Cleaning Process.

Know what it is to sally forth this Spring with NEW appearing upholstery in your "boat."
