

Cabinet Crisis Near in Germany Over Note to U.S.

Reply to Harding's Rejection of Arbitration Role Has Been Sent to Washington, Is London Report.

Berlin, April 22.—A cabinet crisis appears imminent here as a result of the discontent aroused by the government's failure to consult the Reichstag before asking President Harding of the United States to mediate between Germany and the allies relative to reparations. The position of Dr. Simons, foreign minister, is particularly imperilled.

London, April 22.—Germany has sent to Washington a reply to the American note rejecting the role of arbitrator for the reparations question between Germany and the allies, says a Central News dispatch from Berlin. The terms of the note will not be known until late today.

Consideration of the German government's note to the United States was completed at a meeting of the German cabinet last night, says a message received here from Berlin. Party leaders later met with Konstantin Fehrenbach, the chancellor, to hear a report from Dr. Walter Simons, foreign minister, and to express their opinion on the proposals sent to President Harding. The meeting was secret.

British governmental authorities awaited with keen interest today the announcement at Berlin of Germany's policy relative to reparations.

Germany's appeal to the United States to arbitrate the reparations problem and the American rejection of that role brought into the situation certain complexities. The view that the answer of the Washington government had intimated a readiness to act as intermediary in bringing about new negotiations gained ground here yesterday.

It appeared certain that Mr. Lloyd George and M. Briand would be called upon at their meeting at Lympne tomorrow either to reject the good offices of the United States or reopen negotiations.

The Yorkshire Post of Leeds says the last sentence of the American reply to Germany arouses the feeling that the "new American administration may be trying to open gently the door for a return to the allied council, and this impression is strengthened by the hint received a few days ago that under certain circumstances the United States might send an observer to the next meeting of the supreme council."

Harding Promises Aid In Attempt to Pass New Farm Relief Measure

Washington, April 23.—President Harding told western and southern senators who called on him to urge financial relief for agriculture, that he was disposed to have the government deal as liberally as possible with the agricultural industry and promised to do all he possibly could in a constructive way.

The senators urged the issuance of reserve notes to get more currency into circulation and a lowering of the rediscount rate. Seven per cent, they said, was now the prevailing rate, whereas in some states 6 per cent is the usual rate. They called attention to the fact that the federal reserve now had a gold reserve of \$65,000,000, whereas only \$42,000,000 is required.

The senators who are acting in this matter have also conferred with some members of the cabinet and intend to confer with all of them on the subject.

Sioux Indian Given Citizenship Papers

Cheyenne, April 23.—The first full-blooded Indian ever admitted to citizenship in the United States, according to officials, was given complete naturalization here yesterday by Judge John Riner of the federal district court.

He is Thomas Blackbird, 23, of the Sioux tribe and a veteran of the world war. Blackbird was admitted under an act of congress passed November 5, 1919, by the provisions of which any Indian of legal age, who has served in the war may, upon application, be admitted to the rights of citizenship without first making any formal declaration.

The Indian may now vote, hold office or exercise any other privilege reserved for other citizens.

Railroad Sues to Prevent Suit Filed in Minnesota

The Union Pacific railroad went into the district court here yesterday to prevent a damage suit against it from being tried in the district court of Alexandria, Douglas county, Minnesota.

T. J. Callahan, formerly a switchman for the road, filed the suit in Alexandria, asking \$45,000 damages for injuries received while he was in the performance of his duties. The suit proceeded in the court there and summons was served on an agent of the road in Minneapolis.

The road asks an injunction prohibiting Callahan from proceeding with the suit in the Minnesota court, where the railroad would be put to great expense and disadvantage.

Missouri Man Convicted On Third Trial for Murder

Popular Bluffs, Mo., April 23.—James Lohos, at his third trial, was found guilty of second-degree murder and sentenced to 25 years in the penitentiary. He was charged with murdering his wife in January, 1919.

Lohos, it was testified, shot his wife while she was nursing their 11-month-old baby, because he suspected her of infidelity.

Two Held for Forgery
Sacramento, Cal., April 23.—A man giving the name of Samuel Franklin, claiming to be a retired merchant of Blackstone, Va., and a companion who says he is J. A. Jones of Reno, Nev., were arrested here, charged with forging two checks of \$1,000 and \$300 each on local automobile dealers.

Traffic Sermonettes By Traffic Safety Committee.

The Speeding Fool.
He belongs to no particular class—the rich and poor alike have him. His destination is usually nowhere-in-particular, and he rushes there in the most hazardous fashion. He has the speed mania, which is one of the chief causes of accidents. He loves to terrify others and his open defiance of the law causes censure everywhere to fall upon him. To boast of the close calls he has had is his ambition—his delight. He is a liability to the community in which he lives. Even among his friends he is known as the "Speeding Fool."

Frisco Editor And Economist Dies at His Home

John Philip Young, Managing Editor of Chronicle for 43 Years, Is Victim of Paralysis Stroke.

San Francisco, Cal., April 23.—Arrangements were being made today for the funeral of John Philip Young, for nearly 43 years managing editor of the San Francisco Chronicle, who died here early this morning. He was 71 years old. His death was due to paralysis.

Mr. Young was an economist and journalist. He was instrumental in building up one of the great metropolitan journals of the country and also wrote a number of books.

Born at Philadelphia.

He was born in Philadelphia, August 9, 1849. An adventurous life preceded his advent into journalism. A runaway at 16, he enlisted in the navy. Recovered by his parents and placed in a Philadelphia mercantile establishment, the quiet existence palled, and soon he was in Arizona and after thrilling experiences with wild Indians, went to San Diego. Mercantile work was given up for business management of the San Diego Union.

He was thrust into the editorial field by sickness of the editor. In 1873 he went to Washington, D. C., and served four years as city editor of the Washington Chronicle. The call to California found him in 1877 in the employ of the San Francisco Chronicle and a little more than a year later he became its managing editor, the first man, outside of the proprietors of the paper, to assume managerial duties upon the Chronicle.

Author of Many Books.
A power in the civic development of San Francisco, he was one of the founders of the Commonwealth club of this city.

The sphere of his influence beyond the field of the newspaper was attained in the publication of many works, including "Protection and Progress," "The Growth of Modern Trusts," "Bimetallism and Monometallism," "Journalism in California," "A History of San Francisco" and other economic treatises. A forceful thinker in protective policies, his works gained recognition in congress, and President Theodore Roosevelt, commenting upon Young's monograph on trusts, said that he had done a real service to the country in publishing it.

In 1884 he married Georgina M. Brown of St. Louis.

General Condition of Winter Wheat in U. S. Reported Excellent

Washington, April 23.—The condition of winter wheat is excellent in most states, according to the weekly domestic crop review of the bureau of crop estimates. Some damage from the recent cold was reported in the Atlantic states from New Jersey to Virginia and some fields in eastern Kansas were said to be showing yellow.

Spring wheat seeding was said to be practically completed in South Dakota and parts of Utah and Wisconsin.

Planting of corn was said to have made progress in Oklahoma, southern Illinois and southeastern Kansas. Although fruit in general was said to have been severely injured by cold weather, Idaho reported the commercial crop of apples and prunes untouched and grapes in Oklahoma were said to be recovering from the freeze.

Czecho-Slovak President
Has Not Quit, Says Wire Here
Reports that President Masaryk of the Czecho-Slovak republic has resigned are without foundation, according to a telegram received yesterday from the Czecho-Slovak delegation at Washington by Stanley Serpan, Czecho-Slovak consul at Omaha.

President Masaryk has been ill, the telegram states, and has been convalescing for six weeks on the Italian island of Capri at the advice of physicians. During his illness the minister premier, Edward Benes, is placed at the head of the government, according to constitution.

Kitty Gordon Asks \$150,000 On Defunct Movie Contract

New York, April 23.—Kitty Gordon, moving picture and vaudeville actress, appeared before Justice John Ford in the supreme court to press a suit for \$150,000 against Gilbert M. Anderson and Lawrence Weber. Miss Gordon alleges that she was engaged by the two men for the production of eight photoplays for a period of 32 weeks at \$1,250 weekly and 35 per cent of the profits.

When the contract fell through, Miss Gordon said, it took her 12 weeks to get another. She wants \$1,250 a week for that period.

Pass Anti-Picketing Bill
Lincoln, April 23.—The state senate tonight by a vote of 17 to 16 passed the house anti-picketing bill. It is intended to protect workmen from interference by strikers and others, and provides penalties for interference by threats or even persuasion by argument to induce men to quit employment.

Publicity Advocated As Remedy for Peonage

Atlanta, Ga., April 23.—A publicity campaign in Georgia to acquaint the people of the state with alleged peonage conditions was urged by Governor Dorsey, addressing the Inter-racial committee here today.

The governor presented information on approximately 150 cases of alleged peonage, cruelty or lynchings and offered a number of suggestions designed to improve relations between the races in Georgia. Among them were compulsory education for

both races; formation of two state committees, one white, the other negro, to hold conferences on racial matters; assessment of a fine on each county in which there is a lynching and laws providing for the governor to remove county officials held to have permitted lynchings by negligence.

Record Gold Shipment Received From Orient

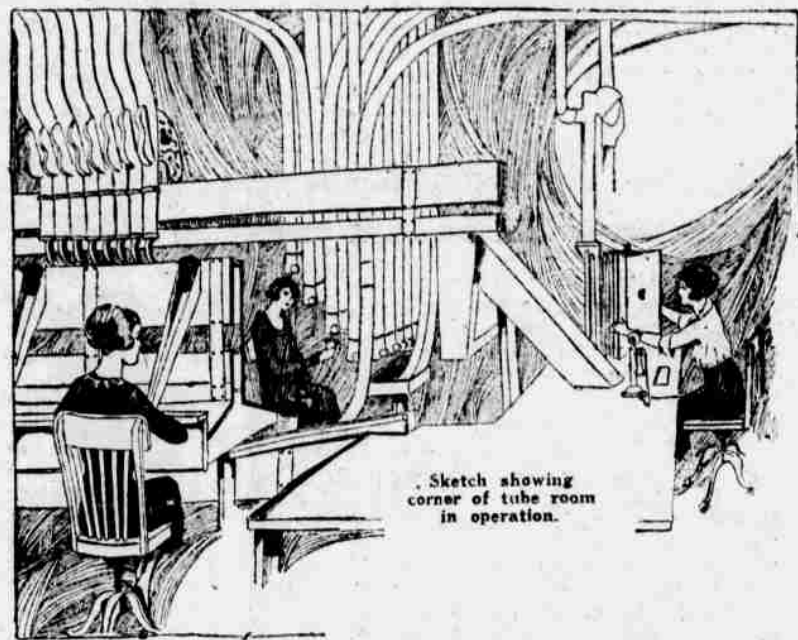

New York, April 23.—Gold valued at \$7,500,000 to \$8,000,000 arrived here on the steamer Eastern Knight from Port Said. This shipment, one

of the largest ever received from the Orient, was consigned to several local bankers. These large gold consignments resulted from the unavailing economic position existing in East India, China and other remote centers since the close of the war. Dealers in bullion here state that the gold now

held in India is being sold to adjust trade balances. It is expected that the sale of this gold will be offset by purchases of silver in this country, especially for account of the Indies, where there is said to be a revival of last year's demand for the white metal. See want ads—little, but mighty.

The Black and White Room

is an ideal place to get a shampoo, manicure, chiropody, marcel wave, massage, etc. Appointments made in advance.

"To be of the Greatest Service to the Greatest Number" That is the Motto of the Burgess-Nash Company

And it is the aim of our great store to maintain this motto at all times, and therefore when the present store was taxed to capacity, plans were made for this wonderful new additional building which is being opened to the public.

When entirely completed it will be filled with the finest quality of merchandise for men, women, children—and furnishings for the home, all at moderate prices, besides every convenience to make shopping a pleasure.

Among the outstanding features is the

Automatic Tube System

This system will facilitate the speed of our credit authorizations, as well as our cash transactions. It consists of 18,000 feet of aluminum and solid brass tubes, through which the carriers are forced at tremendous speed by air pressure.

The tubes are arranged so that all carriers are sent from the department where the sale takes place, to one central station, where about 50 transactions can be made each minute and the carriers returned to their respective departments.

This automatic tube system is the largest and the most modern one in the entire country and is but one of the wonderful service features which are being installed here for your benefit. It will be a pleasure for you to shop and know that no long waits will be necessary if change is to be made or a charge is to be authorized.

Exquisite Lingerie

Which Is Near to the Heart of
Every Fair Young Bride

Chiffon cloth in flesh or the new wild rose pink, hand made laces and delicate embroidery make the bride's lingerie.

Since the sheer and clinging fabrics of outer garments have made the cut and line of ornamentation of undergarments matters of so much importance in the final effect of every costume, lingerie presents in some sense a mode of its own with every changing season. The bride of today no longer includes in her trousseau lingerie enough to last her half a lifetime, but the ample amount for immediate use which she selects, makes up in beauty what it lacks in quantity.

Lovelier than ever before, it seems, is the lingerie which this season offers to the bride, exquisite in its hand made laces and delicate colors and sheer and filmy fabrics, in the fine restraint of its dainty and beautiful embroideries.
