Big Bond Issue Was in Berlin During Communist Uprisings For Railroads Is Sanctioned

Northern Pacific and Great Northern Will Sell \$230,-000,000 Bonds to Retire Old Issue.

Washington, April 26 .- The Interstate Commerce commfssion. granted authority today to the Northern Pacific and Great Northern Railway companies to issue \$230,000.000 joint 15-year controvert-ible gold bonds, at not less than 91.5 per cent, and authorized the com-panies to issue and pledge \$33,000.-000 of other bonds to aid in securing the joint bonds

The issue was authorized to enable the two roads to retire joint bonds amounting to \$215,227,000 issued in 1901 for the purpose of purchasing the Chicago, Burlington and Quincy tailroad.

The commission said the actual rate paid by the roads on the bonds, which will bear 6½ per cent inferest, will be about 7.45 per cent, on account of the expense of marketing. It was estimated that they probably would sell to the public at 96½c. Each holder of the joint bonds will

be entitled to convert them into Northern Pacific or Great Northern bonds. This convertible feature, the commission said, will enable insurance companies, savings banks and trust companies, which in some states are not permitted to invest in bonds secured by stock collateral, to invest in them.

Commissioner McChord dissented tributed dividends upon their capital stock and expended various sums in the maintenance, betterments and extensions, "Nothing has been set aside as a sinking fund to retire any part of their bond issue," he said, "and at the end of a 20-year period have failed to cancel a single dollar of the indebtedness incurred for the sole purpose of obtaining control of another trunk line." He described the transaction as "prod-igal," adding that sooner or later the expense must be met by travelers and shippers. Commissioner Eastman also dis

sented on the ground that by a "frank" statement to the holders of the maturing bonds the whole refunding process could have been effected without the expense called for under the present plan. follows

The city fire department is now

the pride of Omaha. Three years ago when Harry B. Zimman took charge of the fire department he found a crowd of dissatisfied men, divided amongst themselves, pulling in opposite directions, causing inefficiency in the department.

He assigned as his first task the straightening out of his department.

During the past three years, by hard work and diplomacy, he has made his department an efficient and harmonious organization. Discipline reigns, but not autocracy. The men and their superiors have little trouble, and when a controversy does arise which can-not be settled by the men themselves Mr. Zimman is called upon by both sides as mediator.

He has won commendation from both officers and men because of his fair dealing.

Mr. Zimman has made a loyal city employe of every fireman because he knows how to deal with men.

His reputation as a mediator and diplomat is not limited to the
