

Speculation on Naming of G. O. P. Chairman Rife

Adams of Iowa and Dover of Washington State Strongly Spoken of; Thompson of Ohio Candidate.

By E. C. SNYDER.
Washington Correspondent Omaha Bee, Washington, D. C., April 27.—(Special Telegram.)—Within six weeks the republican national committee will meet in Washington to select a chairman to succeed Will Hays, postmaster general.

John T. Adams of Iowa, vice chairman of the committee, is in the national capital and yesterday had a long talk with President Harding. Elmer Dover, formerly of Ohio and now of Washington state, is also in the city. The presence of Adams and Dover has stimulated gossip over the Hays succession, as both men are strongly spoken of for chairman. It is recognized that the president may have some difficulty in reaching a decision upon the man of his choice, to be intimated to the committee.

Popular With Committee.

Mr. Adams, the vice chairman, is very popular with the committee through his long service, and his splendid work in the last campaign is familiar to the president. And there are those who believe he was treated shabbily when they raised the cry of loyalty against him for the United States entered the war against Germany.

Mr. Dover is an old friend of the president and has strong backing in the committee. He is in touch with Ohio politicians and is highly thought of in the far west.

Carmi Thompson of Ohio, another friend of the president, is a candidate for the chairmanship. At one time he was in the limelight as a possible cabinet appointee. Mr. Thompson is a man of large means and it is suggested in his behalf that he could devote considerable personal attention to the office.

New Possibility.

W. T. Hert of Kentucky, one of the most popular and widely known members of the national committee and who was exceedingly active in the executive management of the last two campaigns, is considered available timber.

Senator Harry S. New of Indiana is frequently discussed as a possibility, but his friends declare he would not seek the place and would accept it only on direct request from the president.

When the national committee meets in June the reorganization and strengthening of the woman's bureau will have been effected on an import scale, the details being now in course of arrangement.

Suit for \$10,072 is Filed Against Convict

Lincoln, April 27.—(Special.)—Aker, prominent young farmer living near Harvard, has brought suit in the district court here against Herbert S. Harris, formerly superintendent of the schools at Harvard who is now serving a sentence of one to 20 years in the penitentiary for shooting young Aker last May.

Aker asks for \$10,072 damages. Harris and Aker were both paying attention to the same girl. Harris hid in the back of Aker's automobile following a dance and shot and slightly wounded him when Aker and the girl started to drive home.

Scotia American Legion Entertains With Boxing

Scotia, Neb., April 27.—(Special Telegram.)—Reuben Beck Post No. 150, American Legion, gave a banquet to the members of the G. A. R., Sons of Veterans and the members of the Scotia Community club. Over 70 attended. Music was furnished by the Scotia orchestra. Ray Horner acted as toastmaster. The Legion members for the entertainment of their guests put on two lively boxing matches.

Aged Holbrook Man Is Killed When Struck by Auto

Beaver City, Neb., April 27.—(Special.)—George Lathrop, 75, was struck by an automobile at a grade crossing near the Burlington station in Holbrook and died as a result of his injuries. The car was driven by Miss Emma Phelps, 15. Her father was with her. Lathrop was old and feeble and quite deaf. The car was moving at slow speed and he was struck by one of the fenders.

Continued Rain and Snow Help Crops Near Sidney

Sidney, Neb., April 27.—(Special Telegram.)—The continued rains and snows have advanced fall wheat far ahead of last season. Spring wheat and oats have been sown profusely. The rye crop is doing fine and will be ready to harvest in June. A large acre of corn and potatoes will be planted. Fully 85 per cent of fall wheat will germinate.

Girl Ball Player for Whom Train Stopped, Recovering

Virginia Longnecker may play ball again soon. An operation on her knee at Presbyterian hospital last week is pronounced successful, at her release may be a matter of weeks yet.

Friends Hope She'll Unite Divorced Brandeis Couple

"A real Brandeis" in looks is the first exclamation of all who have seen the above picture of the little heiress, Miss Marie Madeline Brandeis, whose father and mother were divorced in Omaha Monday.

She has the large brown eyes, dark hair and features which at once proclaim her connection with the wealthy Omaha family.

That the baby's strong resemblance to her father might some day be the means of reuniting the recently separated pair was the hope voiced by relatives and friends. "I hope I may live long enough to see that day," said one close relative.

Striking Likeness.

"Stranger things have happened," another commented.

When Marie Madeline's aunt, Mrs. Ruth Brandeis Stern, now living in Paris, glimpsed the baby's picture, she was at once struck with its likeness to her own baby picture, said Mrs. Herman Cohn, aunt to Mrs. Stern and Ervina John Brandeis, the baby's father.

French Chamber Gives Premier Confidence Vote

Paris, April 27.—The Chamber of Deputies Tuesday gave Premier Briand full liberty of action after hearing his report on the reparations conference and by the declaration, "If on May 1 satisfactory proposals, with acceptable guarantees are not made by the German government, the Ruhr will be occupied," the chamber voted confidence in the government, 424 to 29, with 59 deputies abstaining from voting.

M. Briand said he had full confidence that if the Washington government decided to transmit the German counter-proposals they would be such as to safeguard the interests of the allies on reparations.

"But," he added, "there is another violation of the treaty of Versailles which Germany cannot invoke, the impossibility of fulfilling, namely, disarmament, which it has failed to carry out."

Allies in Agreement.

In his statement M. Briand said that France and Great Britain were completely in agreement so far as the principle of coercive measures was concerned. He reviewed all the violations by Germany of the treaty of Versailles, laying special emphasis on Germany's failure to disarm in accordance with the treaty, its refusal to pay 1,000,000,000 gold marks on March 23, failure to transfer its gold reserve and nonpayment of 12,000,000,000 gold marks remaining due on May 1.

The premier declared that the German proposal that Washington mediation was "another dodge to gain time," and continued:

"We have confidence in the loyalty and perspicacity of the government of the United States to take only such initiatives as it is certain are in conformity with the interests of the allies. But so far as France is concerned, our dispositions are taken for the day when the debt comes due."

Boys Find Body of Wealthy Contractor Hidden in Swamp

Chicago, April 27.—The body of Robert H. Brethold, son of a wealthy building contractor, was found by a boy in a swamp near Romeo, Ill., today.

The cause of the death was a mystery as there were no marks of violence. Some of the dead man's pockets were turned inside out as though he had been robbed, but \$300 was found in his vest.

Veterinary Arrested for Death of Illinois Woman

Mattoon, Ill., April 27.—Dr. J. H. Nichols, a veterinary of Paris, Ill., was indicted today for murder in connection with the death on Easter Sunday of Miss Ethel Crume of Mattoon, to whom he is accused of having sent poison through the mail. He was ordered held without bond when apprehended.

Nebraska Solon Holds Record for Bills Introduced

Measures to Amend Earn Loan Act and Provide Public I. C. C. Hearings of Importance to State.

By E. C. SNYDER.
Washington Correspondent Omaha Bee, Washington, D. C., April 27.—(Special Telegram.)—Congressman McLaughlin of the Fourth Nebraska district holds the record for bills introduced by an individual representative, 24 measures falling into the basket yesterday being credited to the man from York. Some of these bills are of prime importance to the great agricultural interests of the state, notably his bills to amend the federal farm loan act and to provide for public hearings and public decisions on the Interstate Commerce and the Federal Reserve commission.

\$10,000 Loan Too Small.

"This bill is greatly needed throughout the central west," said the congressman.

"The practical successful farm in eastern Nebraska and Iowa ranges from 160 to 320 acres, the value an acre being between \$200 and \$300. A loan of \$10,000 is entirely too small to help either in the purchase of the farm or its improvement."

Of his bill doing away with star chamber sessions of the Chamber of Commerce and the Federal Reserve board and making their hearings and decisions public Mr. McLaughlin said:

"My bill requires those boards when rendering decisions to publish the names of members supporting the action and those in opposition, as is done by the supreme court."

Policy Wrought Haven.

"If this bill had been a law when the federal reserve board inaugurated its drastic deflation policy, which wrought much havoc to the agricultural interests of the country and all but produced a national panic, the board would never have dared suggest such a policy, let alone enter upon it."

Mr. McLaughlin also reintroduced his bill with certain modifications to regulate packers. Other bills he introduced provide for the donation of captured German cannon to the cities of Wahoo, Osceola, Aurora, York, Seward, David City, Wilbur, Crete, Milford, Hebron, Beatrice, Fairbury and Geneva.

Valuable German Police Dog in Seattle Poisoned

Seattle, Wash., April 27.—Victor Belle, German police dog attached to the Seattle police department, and her 2-month-old puppy died from poison last night at the home of their owner, Police Lieutenant Harry O'Brien. Lieutenant O'Brien purchased Victor Belle while in Strasbourg, Alsace-Lorraine, during the war and later won the sweepstakes prize with her at Paris. She was valued by Lieutenant O'Brien at \$1,000.

Miners Refuse New Proposals Of Operators

London, April 27.—A three hours' conference today between the miners and the mine owners with Sir Robert Stephenson Horn, chancellor of the exchequer, presiding, brought the disputants in the coal strike nearer an agreement, although the mine owners amended their proposals.

However, hope was expressed over the fact that the miners had agreed to meet Sir Robert Wednesday morning, after which the chancellor will have a separate conference with the mine owners.

In a statement issued after today's conference, the miners' federation says that on both the fundamental issues at stake—a national pool of wages and a wages board—the mine owners' new proposals represent no advance at all toward an agreement.

The proposals of the owners were as follows:

- First, that for a temporary period any change in wages shall be on a flat rate basis in each area.
- Second, that the wages rate shall be calculated on the area instead of the district basis.
- Third, that the owners shall forego profits for three months.

Of these proposals, the miners say: First, the miners' demand for flat rate advances, and reductions on a national basis are in no way met; second, that the areas are only a minor variation from the old districts and, third, that capital, having always based its claim to reward on the assumption that it takes the risks of the industry, it should bear losses in times of depression as it reaps profits in good times.

New Officers Installed By the Omaha Rotary Club

New officers were installed by the Omaha Rotary club at its noon meeting in the Rome hotel yesterday.

Advertisers Seeking Greater Efficiency Per Inch of Space Used

Washington, April 27.—Although there has been no considerable reduction in advertising space used, American business men during the present period of business depression, are seeking greater efficiency per inch of space, according to the domestic distribution department of the Chamber of Commerce of the United States.

This department has just completed a survey made for the purpose of determining what manufacturers, retailers and wholesalers are doing to cut overhead expenses as a means of meeting the demand for lower prices.

"What have you done to reduce your publicity to a normal basis?" was one of the questions asked. More than a fourth of those answering said that they had cut down advertising space, but that was in part balanced by reports from many others who found depression a justification for an increased use of advertising.

U. S. Observers Sent To Far East Republic

Washington, April 27.—The State department announced the sending of two American observers from the embassy at Tokio to investigate conditions in China, the new far eastern republic, the president of which is A. S. Tobinson, former Chicago lawyer, who fled from Russia to the United States 17 years ago.

Maj. William J. Davis, assistant military attaché, and Dr. James F. Abbott, commercial attaché at Tokio, left for Vladivostok April 22, directed to report on political, military and economic conditions in the republic.

"The sending of these observers," said the State department, "does not imply in any way a recognition of the so-called far eastern republic."

Newspaper Correspondent Fined \$1 on Libel Charge

Chicago, April 27.—Leonard G. Edwardson, Chicago correspondent for a New York paper, was fined \$1 and costs by Judge Thomas Taylor on a charge of criminal libel against Judge Charles A. McDonald, chief justice of the criminal court. The case resulted from articles written by Edwardson concerning reports that the 1919 world series base ball scandal cases would not be brought to trial.

Students Resent Charges Made by University Head

Trustees Perfectly Willing to Accept Resignation of President Hodgdon of Valparaiso Institution.

Valparaiso, Ind., April 27.—Many of the students and the faculty of Valparaiso university resented today President Hodgdon's statement alleging bolshevism and communism in Valparaiso university, fostered by its faculty. It is understood that the trustees were perfectly willing to accept Hodgdon's resignation. It is said the trustees have elected for temporary president and vice president, Professors John E. Kessler and A. A. Williams, who have been professors here for many years.

President Hodgdon sent in his resignation yesterday and today he gave out a written copy in which he repeats the accusations of bolshevism and communism in Valparaiso university and their being fostered by its faculty.

He also says: "Valparaiso university is one of America's greatest potential assets. It should offer opportunity for the expression of all the great ideals connected with the development of university life in America. For many years Valparaiso has stood for the best in American manhood and womanhood, denying full opportunity to no one knocking at its doors."

He closes: "A full expression of the vision I have for a great American educational institution seems impractical and I therefore tender my resignation to take effect August 1, 1921, and respectfully request a leave of absence, the period to be determined by you, sufficient to prepare for work in other fields of activity."

It is said the trustees announced the future policy of the university will be on the plans laid down by its founder, S. B. Brown, and his partner, O. H. Kinsey. This is taken to mean that dances and fraternities will be discouraged and games will not be invited with outside schools.

The three great federations in England—miners, transport workers and railwaymen—have a combined membership of more than 4,000,000.

Scientists Hear of New Possibilities of Old Sol Cook Stove

Washington, April 27.—Advantages of the Old Sol cook stove, operated 24 hours a day on sun heat alone, were explained to the National Academy of Science here by Dr. C. G. Abbot of the Smithsonian Institution. The device is as yet a luxury, he admitted, but added that Mr. Abbot had done everything but fry on the solar cook stove at Mount Wilson, Cal. He displayed a can of beans, saying they were solar cook stove canned, which looked good and "tasted better."

The apparatus, Dr. Abbot said, was a "concave, parabolic, cylindrical reflector," through which ran a tube of ordinary cylinder oil to absorb heat from the reflector and apply it to the cooking compartment, insulation retaining heat in the oil burner. Cooking temperatures were automatically regulated by a float device, he said, while a simple clock-work mechanism kept the reflectors pointed to the sun.

Fortune for Old Books

London, April 27.—Mr. Rosenbach of Philadelphia has just spent about \$40,000,000 on rare books from old English libraries.

He bought the treasures of S. R. Miller's library, most famous in England, containing early English poetry and religious tracts. For "Everyman," painted about 1530 and believed to be the only copy known, he gave \$4,320.

World's Champion Father Gets Bad News 20th Time

East St. Louis, Ill., April 27.—"He's the 20th," declared Mrs. Sidney Johnson when her husband came home from work.

"Again!" gasped the city's champion father, as he took the new baby in his arms.

The Johnsons have been married 23 years.

BOWEN'S

Brighten the Rooms of your home with Draperies

The heavy volume of business done daily in our Drapery Department insures customers of the very latest and best patterns procurable in

Drapery Fabrics

when the selection is made at this store, and needless to say, our prices are such that you can afford to hang the best class of draperies in your home. Here are some wonderful values:

ADVERTISEMENT. SIMPLE APPLICATION THAT DISSOLVES BLACKHEADS

No more squeezing and pinching to get rid of those unsightly blemishes, blackheads. There is one simple, safe and sure way to get them out and that is to dissolve them. To do this, just use about two ounces of calomine powder from your drugist—sprinkle a little on a hot, wet sponge—rub briskly over the blackheads for a few seconds—wash the parts and every blackhead will be gone.

Pinching and squeezing out blackheads make large pores and you cannot get all the blackheads out this way—while the simple application of calomine powder and water dissolves every particle of them and leaves the skin and pores in their natural condition. Any drugist will sell you the calomine powder and about two ounces will be all you will ever need.

ITCH!

Money back without question if HUNT'S GUARANTEED SKIN DISEASE REMEDY (Hunt's Salve and Soap), fall in the treatment of Itch, Eczema, Ringworm, Tetter or other itching skin diseases. Try this treatment at our risk.

Diamond Sale

Only a few days left in our diamond discount sale which closes April 30th.

A deposit will hold stock at discount pricing, delivery to be made later.
