Battle to Pass Resolution Is Won by Reavis

Kinkaid Also Successful in Getting Congress to Favor Leniency for Irrigation Farmers in State.

By E. C. SNYDER, Washington, May 3 .-- (Special Telegram.)-Two Nebraska members of congress figured largely in the proceedings of the house yesterday, Representatives Reavis and Kinkaid aroused the congressman from the First district and a battle royal raged for much of the day over the joint resolution which passed the senate April 18, authorizing the appointment of a representative of the executive departments to act with the joint committee on reorganization of the administrative departments of the government. Senator smoot is chairman of the committee and Congressman Reavis vice chair-

Through his persistent efforts and probably aided by the president, who desired that a representative of the chief executive should have a place on the committee. Mr. Reavis succeeded in persuading the committee on rules to give him the right of way to call up the joint resolution and put it upon passage.

Filibuster Fails. rass the party in power, but the re-publican majority stood fast and put

the resolution over with a whoop. The purpose of the legislation is to authorize the president to appoint Walter D. Brown of Ohio as his personal representative on the reorganization committee. In his report from the judiciary committee Representative Reavis

The committee on reorganization of the administrative branch of the government feels the necessity of direct contact with the executive in its work in order that it may best accomplish the purpose for which it was created. The salary fixed by the resolution is the same paid a member of congress and the pro-

vision as to its payment out of the contingent funds of the senate and house is in conformity with the requirements of the joint resolution passed by the 66th congress, under the terms of which the joint committee on reorganization was ap-

Kinkaid's Resolution. Judge Kinkaid had an interesting

hour in passing his joint resolution authorizing the secretary of the interior in his discretion to furnish water to applicants and entrymen in arrears for more than one cal-endar year of payment for mainte-nance and construction charges, notwithstanding the provistion of sec-tion 6 of the act of August 13, 1914.

"Uncle Mose" called up his resolution under the unanimous consent ule. Congressman Walsh of Massachusetts, who in the absence of Congressman Mann of Illinois, constituted himself censor over legislaive matters during the day, doubted the wisdom of legislation in the man-ner which Judge Kinkaid was at-tempting. While Mr. Walsh refused to make any objection to the re-quest for consideration, he protested vigorously. The right of way having been secured for consideration of the resolution, a number of members questioned whether the government should continue to furnish water for irrigation men for another calendar year nothwithstanding they are in arrears.

Says Legislation Necessary. Judge Kinkaid, who controlled the time and made the opening speech, said that he was asking the legislation because of the necessities growing out of the excessive cost of planting and raising a crop during the last year and the low price at which the crops had to be sold. He said that many water users on the North Platte project in consequence had been unable to make the payments due the government for maintenance and operation and were. therefore, not eligible to receive water for irrigation purposes during the season of 1921. If those persons could not get water for irrigation they could not raise a crop and would not be able to pay the accrued

'Tall, Dark Man' In Stokes Case Called to Stand

Husband Denied Right to Give Evidence in Private-All Wife's Witnesses Have Testified.

New York, May 3.-When the axth week of the trial of the W. F. D. Stokes divorce case began yesterday before Supreme Court Justice Finch it was expected Mr. Stokes would take the stand himself, but his attorney, Francis L. Wellman, stated that he is ill of pleurisy. He suggested an adjour, ment of the trial after Mrs. Stokes' case has been concluded for the purpose of taking testimony out of court for the rich, aged husband. Mrs. Stokes' counsel, however, would not agree and the court upheld the contention that Stokes should give his evidence in open

Elliott Bassett Brown, who is the real estate business at Hartford, Conn., and was a roommate at Yale of Victor Miller, half brother of Mrs. Stokes, was one of the witnesses today. He denied that he was ever guilty of any impropriety with Mrs. Stokes. He has been identified as the "tall, dark man," accused by a maid of entering the room of Mrs. Stokes in her West Seventy Eighth street home early one morning.

Bernard Sandler, attorney for Henry Williams, Pullman porter indicted for the theft of Mrs. Stokes' jewelry on a dining car at Buffalo a few years ago, testified that Stokes furnished him with a list of questions to ask Mrs. Stokes when she took the witness stand at the negro's trial. One of her allegations of cruelty in \$19 and New Found Friends Mrs. Stokes counter-claim for a separation is that her husband framed the questions to humiliate her and give the impression that she was their ideas agreed with his own. Wilson agreed. They drived toward.
