Scores of Lives Endangered—Gunman Arrested—Police Seek Knife Wielder and Accomplice.

Lives of scores of persons were endangered yesterday afternoon when a shooting and cutting scrape was staged at the busy intersection of Fourteenth and Douglas streets. Three wild shots were fired through the crowds of pedestrians lining the Douglas street sidewalk waiting for Council Bluffs and South Omaha street cars.

Suddenly from the doorway of a pool hall at that corner, dashed three men.

After a few moments of arguing one of them swished out a knife from his pocket and made several swipes at one of the other men.

Whips Out Gun. The second man reached into his hip pocket and whipped out a revolver.

He fired three shots point blank at the knife-man.

The third man leaped upon him and, with the aid of the other, knocked him to the sidewalk and the pair fled.

In the meantime the crowds had scattered into the doorways and stairways nearby, seeking protection from the shots.

Arrests Gun Man. Officers Zaludek and Asquith, on their way to duty at Central police headquarters, appeared on the scene and arrested the alleged gunman.

He gave the name Tony Sesto, 4535 Parker street. He displayed a slight flesh wound on his arm and slits in his coat, which he said were caused by the knife attack.

He told police his assailant was Jose Vaccaro, Nineteenth and Cass streets, and that the argument arose between them in the pool hall over \$25 which Sesto is alleged to owe Vaccaro.

The argument waxed too warm for the pool hall, Sesto declared, and the men decided to go outside to settle their differences.

Police Seek Pair. A third man, whose name Sesto could not remember, accompanied him to the open air where the "settlement" was to be made.

Detectives are now looking for Vaccaro and the third man. As far as could be learned by the police, neither of them was wounded by the three shots Sesto fired, although the revolver was discharged at close range.

Sesto is held for investigation.

"There will be enough ammunition to blow up the town," said Mr. Musgrave. "We're going to stop mail robberies, that's all."

### Night Traffic Cops Don Electric Bulbs

A new signal device, to be used by the night traffic policemen of New York City, was demonstrated by Department Commissioner Dr. John A. Harris, who originated the device. It consists of three lights, red, white and green, and is suspended upon the chest of the officer on top of a sort of apron-like jacket.

The device is operated by tiny electric switches, one for each light, and is really a miniature model of the signal lights on the huge traffic towers erected on the busy main thoroughfares of the city.

It performs the same duty while eliminating the necessity of erecting the signal tower.

"And if this case is coming into court again I am going to move to have the alimony decreased if I am Leflang's attorney," said J. C. Kinsler. "She now has about \$4,800 a year and is living with her son in an apartment which costs \$137.50 a month. We can find her a good apartment for one-third that amount."
