

F. K. Lane Dies After Long Illness

Former Secretary of Interior In Wilson's Cabinet Is Victim of Heart Attack at Rochester Hospital.

Resigned Early in 1920

Rochester, Minn., May 18.—Franklin K. Lane, former secretary of the interior, died at a hospital here at 6:10 o'clock this morning. Death was due to an attack of angina pectoris.

Mr. Lane was operated on here May 6 for gall stones and appendicitis and was said to be recovering, when heart disease, from which he had suffered from time to time during the last eight months, developed. Hospital physicians expressed the belief that the operation would relieve the heart affection, but an attack early today developed fatally.

Immediately after he had recovered from the influence of the anesthetic, Mr. Lane said: "I am surprised to be alive. I hope to be able to live a long life doing good things for everybody."

Left No Estate Mr. Lane left no estate. Following his resignation from the Wilson cabinet, Mr. Lane sought to recover his health and came here in January of this year. He was advised to spend the winter in a warmer climate and visited in California, returning early this month. His condition was favorable for an operator and continued improvement was noted until the heart attack which caused death.

Death Was Unexpected. Mrs. Lane and George W. Lane, a brother, was called to the former secretary's bedside shortly after 5 a. m. today and were with him when he died. Last night it was thought that Mr. Lane was much improved.

Although Mr. Lane said following the operation that he was surprised to be alive, his improvement recently had been so marked that his death was unexpected. His son, Franklin K. Lane, jr., and his daughter, Mrs. Philip Kaufman, of Washington, were at their homes when their father died, as was his sister, Mrs. M. A. Andersen of Oakland, Cal.

George Lane said this morning that his brother left no estate whatever. Mr. Lane's body will be taken to Chicago tonight accompanied by his brother and widow.

Express Mail Car On Union Pacific Rifled in Wyoming

Dispatches Report Eight Sacks Stolen—Robbery Discovered At Green River—Car Loaded Here.

A sealed express car carrying mail from Omaha to San Francisco on the Union Pacific was broken open and eight mail sacks were rifled sometime after the train left Cheyenne, Wyo., Tuesday night, according to dispatches received here yesterday afternoon.

There were no mail clerks on the train. Tuesday night was the first time all clerks running east of Cheyenne were armed. Men going west of Cheyenne were still unarmed.

J. H. Musgrave, superintendent of railway mail service here declared he had received a full report of the matter, and that no registered mail was involved.

Loaded in Omaha. "The train, No. 9, was a through express carrying storage mail to the west coast," said Mr. Musgrave. "The car which was rifled was loaded in Omaha, sealed and locked. Part of the mail was from Omaha and part had been relayed here from Chicago and other eastern cities."

According to reports received by Mr. Musgrave, indicate no mail was stolen. The car was found broken open at Green River, Wyo., and the mail scattered about the car, his information states. Associated Press dispatches state eight sacks were stolen, however. Another dispatch stated the car contained \$10 in registered mail, which was missing.

No Clues Reported. "I believe the robbers thought they were getting into a registered mail car," said Mr. Musgrave. "When they discovered their mistake they probably left the mail in the car."

"It was a fast train and made only three stops between Cheyenne and Green River, but no clues have been reported to me as yet. The train left Omaha at 12:25 p. m. yesterday. The car was untouched when it left Cheyenne."

Mr. Musgrave says investigation of the case is in the hands of the chief inspector at Denver. Union Pacific officials had heard nothing of the case.

Postoffice inspectors said an office east of Cheyenne had been robbed Tuesday night, but declined to give its location.

Economists Win Bout on Naval Bill

Total of \$1,000,000 Pared From Appropriation Measure in First Test of Strength in Senate.

Amendments Adopted

By The Associated Press. Washington, May 18.—Economy advocates won the first bout in the senate on the \$500,000,000 naval appropriation bill. After the agreement yesterday by administration forces to support the Borah amendment requesting the president to call a disarmament conference attack turned today on appropriation items and on the first test of strength, \$1,000,000 was pared from the bill.

Through a combination of amendments by republicans with democrats the senate, by a vote of 39 to 31, cut the appropriations of \$4,500,000, recommended by the naval committee for transportation and recruiting of men to \$2,500,000. On the next vote, however, enough republicans changed to sustain the committee increase, from \$7,500,000 to \$9,500,000 for navy yards and docks.

Another economy move was in the adoption of amendments on the Charleston (S. C.) dry dock project until July 1, 1924. By a vote of 40 to 23 the senate adopted a committee recommendation prohibiting the dry dock expenditures.

Amendments Adopted. Therefore however, a number of the committee amendments were adopted. These included appropriations of \$1,500,000 for development of a submarine and destroyer base at Guam; \$300,000 for the Sand Point (Wash.) naval air station; \$1,000,000 for development of a submarine base at San Pedro, Cal., and \$15,000,000 toward the construction of two airplane carriers.

Committee amendments authorizing the secretary of the navy to acquire a tract of land from the city of Los Angeles for use as a site for a naval submarine base and a tract from King county, Washington, for use as a site for an aviation base, were approved. Action on acceptance of a tract near Camp Kearney, Cal., for an aviation station, went over by request of senator Borah, republican, Idaho. He also obtained postponement of action on the Alameda (Cal.) supply base project and on committee amendments which would permit a naval personnel of 120,000 to be provided in the house bill.

Cost Limits Raised. Committee recommendations to increase the cost limits of the battleship California, four other battleships and several submarines now totaling \$12,000,000, also were approved. The total increase amounts to approximately \$12,000,000.

The only extended speech was delivered by Senator Reed, democrat, Missouri, who advocated a strong navy "able to meet all comers."

Asked how much money had been paid him by Mrs. Bergdoll, Weinberger refused to answer, contending it was not relative and was privileged matter. When the witness refused to produce his books representative Johnson, democrat, Kentucky, moved that he be held in contempt. There was no objection.

Cable Measure Passed by House

Bill Giving President Authority Over Landings Now Goes to Conference.

Washington, May 18.—The senate bill giving the president authority over cable landings on American shores and empowering him to issue licenses for cable operations, was passed today by the house. It goes to conference.

The measure has been pressed by at least two administrations and is designed to remove any doubt as to the right of the executive to prevent unauthorized cable landings. This right has been questioned for half a century and several court actions have resulted. The latest controversy arose last August when the Western Union Telegraph company undertook to land at Miami, Fla., its cable connecting at Barbados with the British cable to Brazil.

President Wilson refused to issue a permit for the landing on the ground that the proposed cable link would enhance the monopoly enjoyed by the British company over cable landings in the South American republic. A cable ship appeared at Miami, but American warships were ordered there to prevent a landing.

Later the Western Union company undertook to connect the cable with its Key West-Cuba circuit, but President Wilson revoked permits for those lines and substituted a modified permit which prohibited any connection with a foreign line.

In return he demanded that she must never come back to the United States or Canada, and also that she should relinquish any claim of the child, Guy, to a share in the trust fund belonging to the Stillman children.

Mrs. Stillman denied the stipulation applying to the child on the ground that it was admission of Guy's illegitimacy.

Stock Ring Head Flees To Mexico

Postoffice Inspector Seeks to Uncover Leak Which Made Possible Escape of Potash Promoter.

Two Partners Arrested

Two federal officials are under investigation following the escape into Mexico of William A. McWhorter, wealthy stock promoter of Omaha, who is under indictment for using the mails to defraud in connection with the sale of stock in Nebraska potash companies.

News that McWhorter escaped to Tampico, Mex., came to Postoffice Inspector W. A. Coble and Assistant United States District Attorney Frank A. Peterson shortly following receipt of information that Charles S. Wohlberg and Jacob Masse, who are under similar indictment, were arrested at Los Angeles Tuesday.

"Leak" Is Charged. Open charges that "there was a leak in the federal building" were made yesterday by Postoffice Inspector Coble. He declined to name the federal officials involved in the alleged "leak."

The inspector expressed confidence that William G. Chipley, the fourth man in the alleged conspiracy to use the mails to defraud, would be arrested in New York within a few days.

Indictments against the four Omaha men were supposed to have been held secret until they were arrested, Postoffice Inspector Coble said. But McWhorter learned of them and fled.

Tale of Frenzied Finance. The indictments tell a tale of frenzied finance that began with the promotion of the Missouri Valley Land and Cattle company and ended with the flight of the four men from Nebraska with, according to the charges, thousands of dollars.

"We had our hands on those men," Coble stated yesterday. "We knew exactly where they were, but bone-headed officials bawled up the matter."

The postal inspector warmed up a bit when he learned of McWhorter's escape. "There's a leak in this building," he emphasized, "and I'm going to find it."

Attorney Appears. Mr. Coble stated he was much surprised when Judge A. L. Sutton walked into his office a few days after the indictments were returned against the four Omaha men and asked McWhorter's bond of \$5,000 be lowered.

"How did you learn of this?" Coble declared he asked Sutton.

The attorney refused to commit himself, Coble said.

The postal inspector declared that Sutton assured him he would not notify McWhorter that federal officials were looking for him.

"And two days later McWhorter went over the Mexican border," he said. (Turn to Page Two, Column Three.)

Wage Reduction To Extend to All Rail Employees

No Intimation of Probable Extent of Cut Given But It Is Expected to Be Last 20 Per Cent Granted.

Chicago, May 18.—The general reduction of wages for unskilled railroad employes, effective July 1, which was forecast by the railroad labor board, in an announcement last night, will be made the basis of reductions extending to all classes of railroad laborers, it was understood today.

Although only the Chicago Great Western, the Chicago & Alton and a few other roads have requested that the wage reductions be extended to all classes, provision was made by the board in its announcement for the filing of only petitions up to June 6, and it is believed that others of the 180 class A roads will amend their applications to include shop, train service and other classes of employes. The new applications filed up to June 6, the board's announcement said, will be decided to take effect also on July 1.

No intimation was given in the board's announcement as to the probable extent of the cut. Last July the board increased wages of unskilled labor and some other classes 20 per cent, making it retroactive to May 1, 1920.

"The general effect of the decision will be to retard track work," said S. M. Felton, president of the Chicago Great Western. Disappointment was expressed by various railroad executives that the cut was to be delayed until July 1, as by that time, it was said, the heaviest part of track rehabilitation work is generally completed.

The decision last July affected approximately 2,000,000 men and granted increases totaling nearly \$600,000,000 a year.
