THE style of it says "Paris", the finish of it whispers "exclusive shop" or "Parisian modiste"—small wonder that people hesitate to believe that such an achievement could be "home-made"! For in making it, she had what no woman could possibly have before—the actual assistance of the original designer, cutter and creator of the gown—through

**The Marvelous New Picture-Guide**  
**The DELTOR**  
That Saves 50c to \$10—or More on Materials Alone

By a "PICTURE-CHART", The Deltor shows you exactly how the expert cutter would lay out every size, every view of your pattern, on every width of suitable material, to get the most marvelously economical use of the goods. And with the chart before you, you can instantly do what it took the expert hours to work out!

By a "PICTURE-GUIDE", The Deltor shows you exactly how the expert fitter joined each piece to the next. It makes every single step so plain that, without the least effort, you almost unconsciously achieve that perfect "set" of collar, sleeve—every part—which is the despair of all but the artists of the famous shops of Paris or Fifth Avenue.

By "FINISHING-HINTS", The Deltor gives you all those clever little tricks—those means of securing distinction in ornament, trimming and finishing—that so absolutely differentiate the finished charm of Parisian handiwork from either "home-made" or "ready-made".

**The DELTOR**  
now accompanies every new Butterick pattern—giving you, in addition to Butterick's Parisian style, the ability to create the exact counterpart of what heretofore only Paris or Fifth Avenue could produce. Ask for "Butterick pattern with Deltor" for the very next garment you plan to make.
