Billy Goes After the Moths

RETURNING from the mountains, we were horrified to find my husband's closet full of moths; but luckily, only one suit seemed seriously damaged. The eggs had just hatched.

"Billy," I said, "you must help carry these things down to the yard. It'll never do to brush them off in the house."

"But you can't take them out tonight," he answered; "it's raining. How about using our Premier?"

"Of course!" I agreed. "Why didn't I think of that?"

We threw the clothes over the bed, and Billy and I cleaned them with the Premier Attachments.

"Nothing finicky about its appetite, eh Carrie?" Billy observed, while the Premier got eagerly to work.

"I never knew it liked moths," I said; "but no doubt it would find ants or fleas quite as tasty."

Just then Margaret called from the dining-room:

"Come down here, mother; I think the moths are in the rugs."

"Well," said Billy, "we might as well go through the house tonight and get 'em all—along with the summer's dust, anyhow, it's only playing at housecleaning. But first I want something to eat."

The Premier Vacuum Cleaner is the one with the revolving rubber-fingered brush driven by powerful suction. This brush is so firm, but so gentle, that it gets every bit of surface litter, yet will not harm the silkiest or softest fabric. More than this, the Premier knows a moth when it sees one. A cleaner that will rid the house of moths and germs besides doing away with all dirt and grime, is more than a servant; it is practically a health officer.

There is a great difference in cleaners. Before buying any cleaner you owe it to yourself to have a **TEN POINT DEMONSTRATION** of the Premier—First Among Cleaners—in your own home. Phone the distributor named below to have your nearest Premier dealer make this demonstration tomorrow.

The window of every Premier dealer contains a poster of this or a similar advertisement.

Learn the advantages of the Premier's specially designed bag, self-balancing handle, notched nozzle, rubber brush and direct-connected attachments. Test its light weight, powerful suction and efficient attachments. Have this Ten Point Demonstration first thing tomorrow morning. Find out from the Premier dealer what you can do with \$5.00. It will surprise you.
