

Scribes of World To See Real Hula Dance in Hawaii

500 Publishers to Be Royally Feted by Island People at Big Meet October 11 to 25.

Honolulu, Hawaii, June 4.—Between 450 and 500 publishers, editors and newspaper men from all parts of the world will gather at Honolulu, Territory of Hawaii, before the "crossroads of the Pacific," from October 11 to 25, inclusive, as delegates to the press congress of the world, of which Dr. Walter Williams, dean of the school of journalism of the University of Missouri, is president.

Persons of all races in the Hawaiian islands are making extensive preparation for the entertainment of the delegates, and there is not to be one idle moment from the time the first contingent arrives until the time when the last has been sent aboard its ship decked with wreaths of flowers, the Hawaiian symbol of "Oloha Oe" and good luck. Under present arrangements four full days will be given over to the serious business of the congress, and the remainder of the period will be devoted largely to sight-seeing, the program including visits to every island of the Hawaiian group.

Historic Convention Chamber. The business session of the congress will be held in the historic old throne room of the capitol at Honolulu, which was the home of the Hawaiian monarchs prior to the annexation of the islands to the United States, and it still retains all of the picturesque of former days. This room, with its crystal chandeliers, life-size portraits in oil of Hawaiian and foreign sovereigns, its huge mirrors and striking decorations, is now used as the biennial meeting place of the house of representatives of the territorial legislature.

To See Hula-Hula. The beautiful native aspect of Hawaiian life will not be forgotten during the congress, despite the fact that the territory is a highly modern integral part of the United States. It is planned to revive for this occasion some of the great Hawaiian pageants which are now extremely rare. The Hawaiian people themselves look upon the congress also as an opportunity to show something of what the race stood for at the height of its glory and nobility. Among other things, the delegates will hear the finest Hawaiian music and will also see what is now extremely rare, the hula-hula dance in contrast to the vulgarized version which has become rather sporadic away from the islands.

Smile Saves Bride And Groom From Arrest

Atlantic, Ia., June 3.—(Special.)—A smile from Miss Ruby Kessler saved her prospective husband, George Greenwalt, from being arrested while they were on their way to the minister's house to be married. They were stopped by Chief Berry because Greenwalt was operating his car without a muffler. "You'll have to explain to the mayor," said the chief.

"Yes, but you see we're in a hurry; we are on our way to be married," Greenwalt told Chief Berry. The latter was obdurate until the young woman shot him a captivating smile. Immediately the finny heart of the officer melted.

"Go and Godspeed," he said as he waved them on.

Highway Cutoff Is Planned at Alliance

Alliance, Neb., June 4.—(Special.)—Plans for immediate construction of the state highway between Alliance and Broadwater, to connect with the Lincoln highway at Ogallala, were outlined at a meeting here of Chamber of Commerce officials and a delegation of 15 good roads boosters from Broadwater. The proposed route will run from Broadwater past the Murphy and Snow ranches east of Angola and northwest through the sandhills to Alliance. This will place Alliance and Broadwater on a direct branch road leading from the Lincoln highway into the Black Hills and Yellowstone National park regions. With the Alliance-Broadwater road completed, auto tourists, by leaving the Lincoln highway at Ogallala, would have a shorter and better route to these western points. Box Butte and Morrill county officials, together with delegations of business men from both counties, have agreed to meet near Broadwater within the next few days and go over the proposed route. It is planned to rush the work as fast as possible in order to accommodate a large number of auto tourists this summer.

Snarl Develops Over Discussion Of Tincher Bill

Question of Authority in Grain Control Measure Brings Criticism by Senator Reed of Missouri.

Washington, June 4.—Discussion of the Capper-Tincher bill to regulate grain exchanges before the senate agriculture committee developed into a snarl on the subject of delegation of congressional authority to administrative officials. It culminated in the declaration of Senator Reed, democrat, Missouri, that he could not differentiate between government by an individual, board or commission, and the government of William II of Prussia. The Missouri senator attacked provisions of the grain bill, the packer control measure and others which contemplate reposing broad powers to make rules and regulations upon department heads or commissions. It was nothing short of socialistic, he said. "Take the present secretary of agriculture, and I mean no criticism to him personally," said Mr. Reed. "He's an editor. He's not a lawyer and probably knows no more about big business than any one of a hundred thousand farmers. You gave him this power and he hires an army of unemployed who have not even made a success of their own business to draft these regulations and then signs them."

A Truly Magnificent Wedding Present

When you select this superb instrument as a bridal gift to a dearly loved one, you have the satisfaction of knowing that a generation from now when HER little daughter is married, this piano will still have the marvelous rich tone it has today, and will play the music of a generation hence as charmingly as that of 1921.

Mabel Cuts Figure 8's With Auto at 4 A. M.; She's in Jailhouse Now

It was 4 a. m. At Fourteenth and Farnam streets. An automobile appeared. At the wheel sat a woman. With her were two men. As she viewed the boys and girls lined up waiting for the "owl car" home, desire flooded her breast, apparently, for with careless abandon—and great glee—she began to pilot her gas buggy in risky and perilous "figure eights."

So the officers who arrested the trio told Judge Foster in Central police court yesterday. "She was all gunned up," they claimed. "Ten days in jail," announced the judge to the startled woman who said she is Mrs. Mabel Porter, 1101 North Eighteenth street. The two men, C. W. Porter and L. Lathrop, 116 North Fourteenth street, drew lectures from hizzoner and were fined \$10 each.

Reed, declaring congress was attempting to give flexibility to its laws.

The committee heard testimony against the bill by B. L. Hargis, president of the Kansas City Board of Trade, who contended that the proposed regulatory powers were dangerous.

Mr. Griggs has held the division superintendency at Alliance since December, 1917.
