New Hair Growth After BALDNESS

On logal affidavit, John Hart Brittain, business man, certified to this: "My head at the top and back was absolutely bald. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth.

"Yet now, at an age over 66, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs."

INDIANS' SECRET OF HAIR GROWTH Mr. Brittain certified further: "At a time when I had become discouraged at trying to grow my hair again, I came across, in my travels, a Cherokee Indian medicine man' who had an elixir that he asseverated would grow my hair. Although I had but little faith I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prelific as in my youthful days."
