June Sale Eastern Isles

Philippine Lingerie

Hand-Made

Hand-Embroidered

Envelope Chemise and Nightgowns

We are showing, for the first time, something really different in Philippine Lingerie; different because it excels all previous importations of Philippine underthings—in materials—in workmanship, and above all, in exquisiteness of embroidery work.

"Eastern Isles" is the name under which the finest lingerie is identified. It stands for par-excellence, and is your assurance of dependable merchandise. Any garment made in the Philippines and imported to this country, which bears the "Eastern Isles" mark, is one of supreme quality.

These garments are made of choice, selected materials. The envelope chemise are cut from delicate batiste, and the finest nainsook is the fabric used in the nightgowns.

Every one is made by hand—not a stitch of machine work on any of them, and the result is a garment beautifully finished, and the kind that will win your admiration.

The Filipino women who embroider "Eastern Isles" garments are experts in their line. They are painstaking and careful, and when these garments leave their hands, the needlework in them equals in daintiness and finish the beautiful creations of French artists.

Come to the store early to see our showing of "Eastern Isles" Lingerie. The line is now wonderfully diversified, both in styles of garments and in variety of embroidery designs. There is a shopping treat in store for you in our Lingerie Department. Come soon while the showing is complete.
