

### Anti-Britishers In A. F. L. to Seek Irish Recognition

**Sympathizers in Federation  
Prepare Resolutions Which  
They Claim Will Be Passed  
by Big Vote.**

Denver, June 10.—Immediate recognition of the Irish republic, withdrawal of the British troops from Ireland and the refund by Great Britain of the \$9,000,000 loaned by the United States is demanded in the resolution tentatively drafted by Irish sympathizers to be submitted to the convention of the American Federation of Labor here next week. This resolution it was learned today has been decided upon at a meeting of delegates with Irish sympathies. The committee that will complete the document is headed by Peter J. Brady of New York.

**Much Support Pledged.**  
The Irish sympathizers will ask the federation to call upon President Harding to immediately communicate a message to congress urging recognition of the Irish republic and formally protest against the alleged "barbarous war" being carried on by British troops in Ireland. Repayment of the English loan is asked on the ground that British government has failed to pay its interest and was using the money available for this purpose to maintain soldiers to suppress Ireland and "other small nations" and to carry out a great naval expansion program.

"Approximately 95 per cent of the delegates to the convention are Irish sympathizers," said Mr. Brady, who asserted that support to the resolution had been pledged by a larger majority.

Elimination of jurisdictional and inter-union strikes was the main issue before the convention of the building trades department of the federation today. Resolutions were presented endorsing the work of the national board of jurisdictional awards, which has been successful in settling a large number of jurisdictional disputes in the building trades during the last year.

**Will Enforce Decisions.**  
Should the convention endorse this arbitration body, labor leaders said, the United Brotherhood of Carpenters and Joiners, which has decried a decision of the board, will be compelled to accept the award handed down against it in the controversy with the sheet metal workers. In this dispute the board decreed that the sheet metal workers were entitled to do the installation of metal frames and fixtures in buildings.

William L. Hutchison, president of the carpenters and joiners, claims that his organization is entitled to do this work and will disregard the decision.

The position taken by the carpenters has been declared by John Donlan, president of the building trades department, a menace to the successful operation of the national board. He urged the convention to take action maintaining that the elimination of inter-union controversies was necessary to stabilizing the building industry.

### Some Jobless Women Are Riding on 'Rods'

Grand Island, Neb., June 10.—(Special.)—A large number of men being laid out of work due to the present unsettled conditions, has caused a large increase in the number of so-called "floaters, hoboes and bums." Almost every freight train coming in and going out of this city carries a large number of this class of people. The class is not made up entirely of the male sex, as there are a number of the fair sex included. One peculiar instance occurred at a residence located near the cannery factory here.

While the man of the house was working in his garden, two parties, a woman and a girl, approached the house and asked if they could use the bath room for a few minutes. They were granted the privilege. They entered the bath room and it was noticed that they were in the same a considerable time. Finally, as women, and after thanking the man for the accommodations, left in the direction of the city. Later he saw them return, going toward the lower yards, where they undoubtedly again donned men's clothing and caught a freight train, continuing their journey.

### Convicted Mail Bandit Conducts Search for Loot

**Man Taken From Train En  
Route to Prison to Look  
For Missing  
Bonds.**

Sacramento, Cal., June 10.—Roy Gardner, mail bandit, sentenced to 25 years imprisonment at McNeils island prison, was taken from the train here today enroute from San Francisco to the prison by federal officials and led to a spot several miles from the city to search for a mail sack, said to contain between \$150,000 and \$180,000 worth of bonds stolen from a Southern Pacific mail car here on the morning of May 19. According to Special Agent Barney McShane the loss of the bonds was not discovered until several days after the car had been reported entered.

**Claims Double Cross.**  
McShane said Gardner told the federal officers in San Francisco he hid the sack containing the bonds under a tree near this city the night before the robbery of another train near Newcastle to which Gardner subsequently confessed. Search under the direction of Gardner failed to reveal the bonds. The bandit told the officers that he had been "double crossed" and that some one else had taken the sack.

A further search was made along the banks of a nearby stream, but that also was fruitless. Gardner later was taken to a station near Fairbury.
