

Understanding—

- ¶ There is a deep satisfaction to be secured from working with a printer who has a clear understanding of your particular position and its requirements
- ¶ It is the desire of this press to deliver intelligent and real service to purchasers who recognize the value of fine and uniform production
- ¶ Satisfactory service given our customers in the equipping of offices with our standard lines of office furniture and supplies, rendering to them printing of unequalled quality, whether it is in large or small quantities, may be attributed the present growth of our business.
