Writer Gets Ideas Hot From Life

Author of "The Married Life of Helen and Warren" Hard Worker.

Plodding is responsible for the success of the stories of "The Married Life of Helen and Warren," their author, Mabel Herbert Urner, admits, telling how she re-writes each story six or seven times in a laborious eliminating and condensing process.

Constant association with a notebook and pencil gets all the ideas for her stories of the intimate life of "America's best known couple." Every time she sees an incident, or a friend tells a romantic or dramatic happening, she jots down the essentials and in a short time Helen and Warren act it out for their readers.

In private life Mabel Herbert Urner is Mrs. Lathrop Colgate Harper. Her husband is a bibliographer of note, a dealer and collector of rare books and has a wide literary knowledge. They were married in 1912, according to "Who's Who." Their home overlooks Gramercy park, in New York.

Ancestral Home Of Washingtons Is Rededicated

Marquis of Cambridge, Brother of Queen Mary, Is Principal Speaker at Elaborate Ceremonial.

Sulgrave, Northamptonshire, June 21.—Sulgrave Manor, ancestral home of the Washingtons, was rededicated here today with elaborate ceremonies after its restoration, at a cost of \$50,000 pounds, to the state in which it existed three centuries ago.

The marquis of Cambridge, brother of Queen Mary, gave the principal address, asserting the fundamental solidarity of the peoples of the empire and the republic and declaring the day's advent a good augury for the future.

The prince of Wales planned to be present, but was detained. He extended an invitation, however, to a delegation to call on him tomorrow at St. James palace, London, to give him an opportunity to express his personal interest in the enterprise.

Today's exercises were arranged by the Sulgrave institution, organized to foster friendship between Great Britain and the United States.

The exercises began with short services in the Sulgrave parish church, where L. L. Washington, forebear of George Washington, Mrs. Washington and their 11 children were worshipped. The ceremonies proper were held on the lawn of the manor house.

John A. Stewart, president of the American branch of the Sulgrave institution, presented a bronze bust of Washington to the manor on behalf of American donors. Hearing Begun To Test Sanity of Wife Slayer

Chicago, June 21.—Given a new lease on life by the Illinois supreme court, Carl Wanderer, slayer of three, appeared in court today when a hearing was begun on a petition for a further investigation into sanity. It is claimed that Wanderer has lost weight since his conviction, that his color is not healthful and that he imagines he hears his murdered wife's voice at midnight. These are the sole grounds for the insanity plea.

His attorneys attempted to have the hearing put over to October because one of the alienists is now on his vacation. Judge David announced that the trial was confined to the question as to whether or not Wanderer has become insane since his conviction.

Says Shipment of Cows To Germany Was Mistake

Sioux Falls, S. D., June 21.—(Special.)—The recent large shipment of cows to Germany was a mistake, according to Henry Wotrock, a McCook county man, who accompanied the shipment overseas. He has returned to his home with a story of the trip.

There are plenty of cows in Germany, Wotrock says, and it is possible to buy a good animal there for \$65. What is needed in Germany, according to his observation, is feed to sustain the cows they have already.

cunning and stealthy manner have outwitted the intent of the law," said the approved declaration. "In California alone there are over 100,000 Japanese."

This peril is not only a serious condition for California, but it is a positive menace to our entire nation.

Grain Gambling Abolition Urged. "The American Federation of Labor is fully justified in taking a firm stand to do away with the 'gentleman's agreement' and in its place inaugurate a definite policy calling for total exclusion of Japanese with all other Orientals."

Abolition of gambling in grain futures on the Chicago board of trade, establishment of co-operative producers' and consumers' organizations and government regulation of corporations and monopolies were urged as a means to combat the high cost of living.

The work of the federal trade committee was commended and congress was urged to provide funds for investigation of all industries and publication of statistics showing the cost of production and marketing of all staple commodities.

"If the people are in full possession of all the facts," the declaration said, "of costs of distribution and the profits made on the necessities of life, public opinion would have a powerful effect in reducing prices, and there would be no necessity of prosecution under the Sherman anti-trust law."

Too Many Overtures. In urging the abolition of "gambling in futures" and "unnecessary reconcessions and brokerage operations" the resolution said there "are too many overtures between the producers and consumer, which ultimately increase the cost of living."

Protests Attempt to Locate Reformatory In Lancaster County

Lincoln, June 21.—(Special.)—Information circulated through the state house that Lincoln will be selected as the location of the new \$300,000 reformatory, or freshman prison, has resulted in an open letter of protest to the state board of control from W. L. Gaston, assistant secretary of state.

Supporters of the candidates were busy throughout the night and conferences were held that are reported to have considerably changed the lineup of both sides in the contest.

Both candidates expressed themselves as confident of victory, declaring that they had been pledged sufficient votes to win. Their claims, however, conflicted, and no accurate estimate could be made of the votes that each would probably receive.

The official announcement of the decision of the representatives of the railroad workers was awaited with interest as both the Gompers and Lewis supporters claimed a majority of those organizations. The electrical workers and the International Ladies' Garment Workers were also claimed by both candidates.

What a difference that tiny filament of tungsten makes!

The use of tungsten as a reproducing point was a real discovery and an actual invention. Its soft fibrous qualities were what had been sought for years. This truly remarkable metal always insures a perfect reproduction of the music and at the same time gives long life to the records. The tungsten wears itself away rather than the records.

You get these advantages only in the Victrola Tungs-tone Stylus—the Victor Company patented the stylus composed of tungsten and therefore has the exclusive right to the use thereof in any form of talking-machine needle. Three tones—extra loud, full, soft. The new extra loud stylus will be largely used for dance music and outdoors. 10 cents per package of four points—enough to play at least 1000 records. Semi-permanent. Changeable. Sold by all Victor dealers.

The Joy of Getting Ahead

Thrift is merely the common sense-view of life: getting ahead by the proper route does not mean denying oneself wholesome pleasures—it means proper care of income.

Thrift means earning and saving; the use of wise economy; sacrificing a little now as a means of having more later.
