

Kansas Will Ask Reduction in Hay And Grain Rates

Head of Public Utilities Commission to File Request With Interstate Commerce Body.

Washington, July 7.—Immediate action that will insure Kansas shippers of hay and grain products relief from "burdensome" freight rates, will be requested of the Interstate Commerce commission tomorrow, by Clyde M. Reed, chairman of the Kansas public utilities commission and the Kansas congressional delegation.

A formal application will be made for a reduction in the freight rates on grain, grain products and hay. Other hay and grain producing states are expected to join in the application later.

"These rates vitiate all attempts at a readjustment toward economic normalcy," Chairman Reed declared, in his formal application. "The existing economic conditions are such as to warrant giving grain, grain products and hay freight rates first consideration in the inevitable revision of transportation rates."

"Owing to the great reduction in the market price of grain, grain products and hay, which reduction has not been accompanied by a corresponding relative reduction in the freight rates, the grain and hay producers of the state of Kansas are financially in a precarious condition."

The horizontal increase of 35 per cent applied to rates in the western group last July has resulted in a readjustment of rates because of the marked decline in the prices of grain and hay, the Kansas officials declare.

The petition says the rates are "prohibitory" and will "lead to bankruptcy and ruin of the grain and hay producers of the west."

Representative Christopherson of South Dakota introduced a resolution in the house today providing that the Interstate Commerce commission be requested to consider the agricultural products freight rates forthwith.

Alliance Commerce Body Gets Express Rates Lowered

Alliance, Neb., July 7.—(Special.)—A reduction of more than 50 per cent on express shipments of ice cream from Alliance to Hot Springs, S. D., has been secured by the Alliance Chamber of Commerce.

The rate from Crawford to Hot Springs was only 96 cents a 100 pounds, while Alliance shippers were paying \$2.15. The Interstate Commerce commission has advised Secretary Carey of the Chamber of Commerce that the rate from Alliance to Hot Springs has been cut from \$2.15 to \$1.04.

Federal Dry Agent to Work With State Deputy Sheriff

Lincoln, July 7.—(Special.)—R. G. Anderson, federal prohibition agent for Nebraska, was notified today by Federal Director Hunt of Minneapolis that starting Saturday, July 9, one federal prohibition agent will be assigned to work with one of the state deputy sheriffs.

Anderson will consult with Gus Myers, state sheriff, and J. C. Kinsler, new United States district attorney, today at Omaha to perfect a plan whereby those engaged in prohibition enforcement work in this state will co-operate.

Farmer Must Pay Alimony To Omaha Woman, Court Says
Lincoln, July 7.—(Special.)—Elizabeth G. Kessler, 64, Omaha, will receive \$3,000 alimony from William H. Kessler, 73, Harlan county farmer, the state supreme court ruled today, affirming a decision of a Harlan county judge.

Political Ward Boss Is Victim of Tuberculosis

Boston, Mass., July 7.—"Diamond Jim" Timilty, a political boss, beloved of his people is dead and the Roxbury district where he rose from bricklayer to state senator mourned his passing today. Death came yesterday at his place in Sharon, where he had gone to make his fight against tuberculosis. The ward boss, endeavoring himself to his constituents by charities that were countless, had stayed close to them in their tenement district notwithstanding his own greatly improved fortunes until illness forced him to seek better air.

Educators Urge Place in Cabinet

Public Appreciation of Education Is Said to Have Increased

Des Moines, Ia., July 7.—Public appreciation of education has greatly increased during the past year with the result that much headway has been made in the movement to secure the creation of a federal department of education with a cabinet official as director, Hugh S. Magill, field secretary of the National Education association, told the national assembly of the body here this morning. Mr. Magill presented the annual report of the legislative committee.

The city school system and its relation to the American program in education, was discussed. Important objectives of the city school were set forth as follows:

A superior teacher in every class room.
The elimination of illiteracy, through Americanization training up to the age of 18.
Department of education with a secretary in the president's cabinet, and the equalization of educational opportunity.

McKelvie Opposes Howell Plan for Radio Telephones

Urges Secretary Wallace to Centralize System—Howell Would Put His Campaign Manager in Charge.

Lincoln, July 7.—(Special.)—The contention between R. B. Howell, republican national committeeman and candidate for United States senator, and Governor J. R. McKelvie, probable opposing republican candidate, over the distribution of political plums in Nebraska broke out again here today when Governor McKelvie made public a letter to Henry C. Wallace, secretary of the Department of Agriculture, at Washington.

The letter written by Governor McKelvie follows:
"The state department of agriculture in Nebraska has been aware for some time that the postoffice department and the department of agriculture have been seeking to develop a plan for dissemination of market reports to the farmers through the use of wireless telegraph and telephone. We have been very much interested in this and have been holding ourselves in readiness to co-operate with the federal government in this matter through our bureau of markets and marketing in the department of agriculture."

"When Mr. Lee B. Stuhr, secretary of the department of agriculture in Nebraska, was in Washington some time ago he took this matter up personally with the federal bureau of markets and the information was given him that the work would probably be carried on in an interstate way through the federal bureau of markets, and that the dissemination of information in this state would be detailed to the recognized state department having to do with this subject."

"Would Avoid Duplication."
"Meanwhile, we have been reluctant to spend the money in the state in investigational work, because we have thought that so long as the federal government was doing it, the states should not incur the expenses of a duplication of effort."

"I trust, therefore, that as soon as you feel reasonably sure of the practicability of this work, you will take the matter up directly with the department of agriculture in Nebraska so that we may lend you the fullest co-operation in the carrying out of this program. Our marketing organization will be placed at your immediate disposal, and we feel that you will recognize here the opportunity to carry on this work without the creation of any further agencies whatsoever in this state."

"It has been my observation and experience that one of the most fruitful sources of waste is in the duplication of effort and the creation of boards and commissions. Here, then, is an opportunity to avoid that condition by using the agencies that already exist and are organized for this specific kind of work."

Iowa Woman Hurt in Fire; Hotel Man Held for Arson

Dallas, Tex., July 7.—W. M. Ray, proprietor of the Regal hotel, was arrested here today and a charge of arson placed against him, following a fire which wrecked the hotel and caused injuries to 10 persons.

Miss Alice Roberts of Sioux City, Ia., an invalid, was the most seriously injured. She sustained a possible fracture of the skull when her older sister, Miss Eleanor Roberts, dropped her from a second story window to the sidewalk below.

Her condition was reported at the hospital tonight as slightly improved.

New Trial Granted Man Held for Manslaughter

Lincoln, July 7.—(Special.)—Rather than accept a sentence on a manslaughter charge Harry Thompson of Stanton county is willing to have another trial and run the danger of landing in the electric chair. Stanton was found guilty of manslaughter and appealed to the supreme court, alleging that the evidence shown did not warrant a manslaughter verdict. The supreme court agreed with him and remanded the case back to the district court for a new trial.

President May Probe Mystery Of 'Den Shows'

Harding Officially Invited to Omaha—May Make Trip West as Far as Wyoming.

Washington Correspondent, Omaha Bee.
Washington, July 7.—(Special Telegram.)—If congress should decide to take a recess in late August or early September, it is a pretty safe guess that President Harding will make a trip west, going as far as Wyoming and stopping off at Omaha to be shown the mysteries of Ak-Sar-Ben. At least that is Congressman Jefferis' deduction after presenting a most pressing invitation from the board of governors of Ak-Sar-Ben and officially signed by the secretary, Charles R. Gardner, to the president today.

Mr. Jefferis told of the achievements of Ak-Sar-Ben since its organization nearly 30 years ago, the good it had done in bringing the people of the state together for a better understanding of varied community needs and the splendid spirit of co-operation it had inspired throughout the commonwealth.

The president, who is wise to a lot of things that go on throughout the country, indicated that he had heard about the doings of Ak-Sar-Ben and would like to see the organization in action.

Secretary Christian said that he had been told of the shows Ak-Sar-Ben put on at the "den" in Omaha.

Woman Jilted After 26 Years To Get \$17,000

Supreme Court Makes Award Despite Defendant's Objection to Goiter on Fiancee's Neck

Lincoln, July 7.—(Special.)—Growth of a goiter on the neck of a fiancee is not sufficient cause for the breaking of a marriage engagement, under a decision of the Nebraska supreme court handed down today and as a result Miss Jenny Sellers of Humboldt, Neb., will get \$17,000 from Louis Henry Howe, wealthy Lincoln bachelor.

Testimony introduced showed that Jenny Sellers became engaged to Louis Henry Howe when she was 14 and he was 24, and that the engagement continued until she was 40 with a goiter on her neck and he was 50 with \$75,000 in cash in his pocket.

Howe claimed, according to testimony, that the goiter grew on her neck and temper, and anyway, she refused to marry him while his mother was living.

The trial court awarded her \$22,000. The supreme court cut the award to \$17,000.

Woman Jilted After 26 Years To Get \$17,000

The trial court awarded her \$22,000. The supreme court cut the award to \$17,000.

To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance. Nuxated Iron is not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially predigested and assimilated by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturer if you do not obtain satisfactory results.

Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.

Gift For Every Baby At "Lloyd" Carriage Exhibition Saturday, Union Outfitting Co.

The latest improvement in baby carriages will be demonstrated Saturday.

Up in Michigan there is a firm turning out the most beautiful Baby Carriages in the world and at the same time weaving them on looms into shapes that are roomy and restful for baby.
